SUIT OUTGROWTH OF RECEIVERSHIP

Special Judge Hears Evidence in
Case in Which L. G. Vannice
Seeks \$200 and Camera.

CLAIMS THAT SUM IS DUE HIM

Was to be Turned Over by Receiver
C. A. Frazee But A. P. Walker
Filed Objections.

Special Judge Raymond Springer, of Connersville, heard the case of L. G. Vannice against A. P. Walker today in the circuit court. The case is the outgrowth of the Walker receivership, Vannice alleging that he has \$200 due him from the receiver for services rendered, and the right to a camera valued at \$120.

When the affairs of Walker were in the hands of the receiver, Charles A. Frazee, Vannice was employed by the receiver to assist in the work of preparing a catalogue for a cattle sale and other work around the Walker farm. He claims to have been paid in part by the receiver but has a balance coming of \$200, and also the camera. According to the testimony, Vannice was employed at the rate of \$100 a month. The money was paid by the receiver, but Walker objected to the final report and the \$200 and camera are in the hands of the clerk of the court awaiting the outcome of the case.

The defense maintains that Vannice was paid sufficiently for the services rendered and the right of the receiver to pay him the additional money is questioned. Walker maintains that he bought the camera, paying for it, out of his private funds, while Vannice stated on the witness stand that Walker paid for it and that it was then charged up to their business account and that he eventually paid for the camera.

According to the testimony, when Charles A. Frazee was appointed receiver the camera was turned over to him under protest. Vannice maintaining that it was his property and did not belong to the partnership. Walker and Vannice operated the Jersey Isle stock farm during the years 1911, 1912, 1913 and part of 1914.

The defense also showed that as soon as the Walker property was turned over to A. L. Winship for settlement the services of Vannice under the receiver ceased and that the money he received previous to this time was all that he had coming. Judge Springer took the case under advisement following the conclusion of the evidence.

L. L. Broadbuss, also of Connersville, was here today hearing the partition suit of Day against the Schrichte estate. This case has been hanging fire since 1909 and he expected to hear the evidence today.

MINE FRENCH TRENCHES

Germans do Not Take Advantage of
Opportunity, Paris Says.

(By United Press.)
Paris, Feb. 12.—Severe fighting continues to the south of La Boisselle where the Germans have succeeded in exploding a mine under a section of the French trenches. Despite this fact it was officially announced here today that the French are maintaining all of their positions there and that the Germans were unable to take advantage of the destruction.

John Newman has filed an account suit against Harry Colter, demanding \$1600.

PLAN TO HOLD BARBECUE

Milroy Business Men's Association
is up and Doing.

The Milroy Press this week announces that one of the plans of the Milroy Business Men's association that it hopes to carry out is to provide in the near future a corn show for Richland, Orange and Anderson townships, together with a big barbecue and all day entertainment for everyone in the community. It is stated that the program will include speeches by some prominent men, with music and moving picture shows. The movement, it is said, is only in its infancy to make it a day long to be remembered in southern Rush county.

JOHN WORTHINGTON IS NEW P.O. CLERK

Announcement Made Today That
Order For More Help at Local
Postoffice is Issued.

APPLICATION LAST AUGUST

After several months of "watchful waiting" Postmaster G. P. Hunt has succeeded in getting through the postoffice department an order calling for a third clerk in the local office. John Worthington is the man to get the position and he will take up his duties Monday morning.

Business in the local postoffice has increased to such a great extent that a third clerk has long been needed and last August Postmaster Hunt made application for the third clerk. The order has just been made and is expected to help the local force wonderfully in the handling of business. The examination for the position of clerks and carrier was held last May and at that time Mr. Worthington received the highest grade of any of the applicants. His grade is said to have been the highest ever made in a test for a position at this office.

Mr. Worthington, the new clerk, is a well known young man of this city, and for the past two years has been employed at the Guffin Dry Goods store.

GRAND JURY TAKES UP THE BROWN CASE

Man Accused of Stealing \$180
From Martin Kelley Evidently
Given "Third Degree."

WITNESSES ALL EXAMINED

Business before the grand jury was considerably lighter today as compared with other days this week. All of the witnesses called by the grand jury have been examined and Sheriff Cavitt has no more to summons. The grand jury took up the case against Omer Brown today. Brown is held in jail on a grand larceny charge, it being alleged in an affidavit that he stole \$180 from Martin Kelley.

Brown was evidently given the "Third degree" by the grand jury as he was before that body for over 3 hours. He was brought before the grand jury about eleven o'clock this morning and at three this afternoon had not completed his testimony. It was expected that other witnesses on this case would be called.

ELECTRICITY TO DISPLACE STEAM

Pinnell-Tompkins Lumber Co. Will
Install Individual Motors and
Use City Current.

EXPENSE OF ABOUT \$3,500

Combined Horse Power of 22 Motors
Will be 152—Done in Other
Pinnell Plants.

The Pinnell-Tompkins Lumber company of this city is making improvements in preparation for the use of electricity as power that will cost approximately thirty-five hundred dollars. Practically all of the material for installation has arrived. The plant will be closed for two weeks while the wiring is being done.

Each machine will be equipped with an individual motor ranging from one of twenty-five horse power down to the smallest with five horse power. The combined horse power of the twenty-two motors will be one hundred and fifty two.

Steam power will be abandoned which will mean the discarding of the steam engine, belts and several yards of line shafting which is used at present in operating the machines. The boiler will still be used for heating purposes.

The electric wires will all be laid in conduits and all of the equipment will be the most modern. The Capp Plumbing & Electric company has the contract for installing the motors and doing the wiring.

The Pinnell-Tompkins company put in an individual motor on a saw about a year ago for the sake of convenience and it has given perfect satisfaction. The saw was placed in such a position that it could not be operated from the line shaft without great difficulty.

The company figures that the expenditure for the improvement will be economical management. Under the present system, enough power is being generated all the time to operate twenty-two machines, all there are in the mill. When the individual motors are installed, only the machine that is in use will be running. And since there are only four machine operators, eighteen machines will be idle all the time and that much saving in power will be realized.

The Pinnell-Tompkins company will be the third factory in Rushville to use electricity for power purposes. The Charles E. Francis company was the first concern in Rushville to adopt this system of the individual motor for each piece of machinery. The Charles E. Francis company uses current from the municipal electrical plant as the Pinnell-Tompkins company will be. The Rushville Furniture company was the second factory in Rushville to use electricity for power. This company generates its own current.

Similar improvements are being made in the ten lumber factories in Indiana in which Mr. Pinnellis interested. The concerns in which he has an interest are located at Shelbyville, Coffey, Lebanon, Noblesville, Danville, Jamestown, Advance, Fairland, Kokomo and Rushville, with central offices in Indianapolis.

KAISER DEPRESSED.

(By United Press.)

Paris, Feb. 12.—According to the Zurich correspondent of a Paris newspaper the kaiser is in a state of absolute depression and has told members of his suite that Germany must seek some way to conclude peace.

The ladies of the Big Flatrock church will hold an exchange Saturday at the Plough Millinery Store.

CONFERENCE TO BE HELD MONDAY

County Commissioners Will Meet
A. W. Butler, Secretary of State
Board of Charities

IT IS AT HIS REQUEST

Presumed by Board That he Wants
to Discuss Plan for New County
Asylum Building

The county commissioners will go to Indianapolis Monday for a conference with Amos Butler, secretary of the state board of charities. Mr. Butler has asked that the commissioners meet with him and while he has not given out the purpose of the meeting it was believed by the commissioners to be for the purpose of discussing plans for a new building at the county poor farm.

The meeting was to have been held today, but Mr. Butler sent word for the commissioners not to come as this was a holiday and he did not believe they could accomplish anything today. Mr. Butler while here a week ago personally inspected the building at the poor farm and while he could not comment on what kind of a report he would make, he did drop the remark that one of the buildings there was a disgrace to Rush county.

The commissioners and county officials would not be surprised if Butler condemned the building and ordered a new one erected. A new building will have to come sooner or later and the commissioners expect to be asked to look over plans of the state board of charities. The annual report of the state board of charities for the past ten years has been practically the same in regard to the buildings at the poor farm. Every report states that the buildings are poor and that the inmates cannot receive the attention they should because of this.

In all of the reports the superintendents have been praised while fault was always found with the buildings. The superintendents of the poor farm have always escaped criticism and the farm has been conducted in a business like manner, but the reports of the state board invariably take a knock at the buildings.

The commissioners expect Butler to make them some kind of a report and offer a solution to the difficulty. Other poor farms may be visited to get ideas on buildings.

EFFORT TO FORCE RULE

Ship Purchase Bill Advocates Fail in
Senate Coup.

(By United Press.)

Washington, Feb. 12.—With the aid of Vice-President Marshall's vote the ship bill advocates in the senate this afternoon laid the ship bill aside to take up a special rule providing for a vote February 19.

The vote was 47 to 47 so Marshall balloted with the Democrats. The Republicans and bolting Democrats were put in the position of voting against displacing the ship bill. The attempt to force through the rule requiring a separate ballot failed by one vote.

"NO COMPROMISE."

(By United Press.)

Washington, Feb. 12.—President Wilson stood pat today on "no compromise" in the ship bill fight. Reports that he would consent to modification were fiction, the white house intimates.

MAY MAKE IT PARTY BILL

Democratic Majority Has Option on
Suffrage Measure Until Tuesday.

(By United Press.)

Indianapolis, Ind., Feb. 12.—The Democratic majority in the assembly has been handed the partial suffrage bill and has an option on it until Tuesday. They will decide by that time whether to make it a party measure.

That statement came today from the Legislative council of Indiana women which is pushing the bill and explained the numerous delays in having it introduced.

FLAG PRESENTED TO HIGH SCHOOL

E. B. Thomas Makes Appropriate
Talk at Exercise Which Per-
formed Double Function Today

LINCOLN'S BIRTH RECALLED

The large American flag given to the high school by the J. B. Reeve estate was formally presented to the high school this morning with an appropriate address by E. B. Thomas. Mr. Thomas praised the late Captain Reeve highly. He recalled him a citizen quiet in his ways and one who was versed in the needs of the community. Mr. Thomas said the three years Capt. Reeve spent in the army to help preserve the nation proved his devotion to his country. He paid deep tribute to the flag, declaring that the high school pupils would learn to appreciate it as they grow older and as they learned that a life of service was the one that counted. The high school appreciated Mr. Thomas' talk immensely. The flag will be used inside the building for the high school.

There were no special programs commemorating Lincoln's Day in the grades today, but at the usual morning exercises the significance of the day was brought out by the teachers in some way. The schools here did not act on the suggestion of the state superintendent to take a collection for the war sufferers on Lincoln's birthday because the schools contributed to the local Belgian relief fund some time ago.

RUSSIANS FORCED ACROSS THE BORDER

Enemy Retires Across Prussian

Front to Prepared Bases.

Berlin Asserts Today

ENORMOUS REINFORCEMENTS

(By United Press.)

Berlin, (By Wireless), Feb. 12.—With the kaiser again on the eastern battle front, fighting of the most severe character is proceeding along the Vistula and in the Carpathian region with results described by the general staff as eminently satisfactory.

The fighting along the eastern Prussian front, however, has resulted in the Russians being forced back across the border on to their prepared bases where they are now trying to return to the offensive. The Russians are bringing up enormous quantities of reinforcements and supplies and it is reported here that Duke Nicholas is personally in command.

DRUGGISTS BILL KILLED IN HOUSE

Measure to Impose Rigid Rules to
Prevent Sale of Liquor Defeat-
ed Over Protests.

STATE OFFICIALS SCORED

Resolution That They Abide by
Spirit of Anti-Lobby Law is
Passed in Upper Branch.

Indianapolis, Ind., Feb. 12.—Despite vigorous protests of Representative Habermell the house today killed his bill to impose rigid rules to prevent the sale of liquor by druggists. The vote of 51 to 34 overruled the majority report of the committee and adopted the minority report for indefinite postponement. Habermell asked calmly that his bill be passed to third reading and be given a chance for discussion.

"The reputable druggists are for this bill. I have hundreds of letters from them," he said. "He pointed to the fine looking gentleman from Hamilton county who appeared before the committee and who was a druggist himself. He read a letter from a young man who purported to be acquainted with the fact and stated that the druggists violated all the laws of man and common decency.

Representative Hagerty pleaded for the old remedies which he said could not be had if this bill were passed. He named rock and rye.

State officials who lobby were scored in the senate today. Democratic Floor Leader VanNuys said the only reason they were not included in the anti-lobby act was that it would have been unconstitutional.

Senator Ballou led the attack by criticizing A. E. Humpke, inheritance tax investigators, for opposing the Ballou bill to give counties the proceeds of the inheritance tax. Ballou introduced a resolution that it was the sense of the legislature that state officials abide by the spirit of the anti-lobby law.

When Senator Van Auker moved to postpone, VanNuys urged that the resolution be passed at once and it was passed.

"The state officials are taking too much of our time," said VanNuys.

Senator Thornton declared a man connected with the state insurance department was lobbying in the interest of the insurance companies.

LECTURE TONIGHT.

Mrs. Demarchus C. Brown of Indianapolis will lecture on "Sola, the Friend of the Oppressed," at the Graham school building assembly room tonight at 7:30 o'clock. A large crowd is expected.

William Curry and Frank Curry have filed suit to enforce the payment of a note against Warren W. Robbins, Henry Robbins and the Capital State bank.

Inquiries or Customers?

Some manufacturers compute the value of their advertising value by actual customers and actual sales.

That is why the retailer invariably favors newspaper advertising. It sends customers to his store and sells the goods.

When it is the manufacturer advertising in the local newspaper that is sending those customers that retailer is naturally favorable to that manufacturer and his goods. He shows the goods and sells them.

PUBLIC SALE

The undersigned will sell at Public Sale on the old Joe Gosnell farm in Washington township, 2 miles northwest of Raleigh, on

Tuesday, February 16, '15

2500 Bushels of Good Yellow Corn

FORTUNES MADE AND LOST IN IT

Wheat Market History a Story of Joy and Sorrow With Innocent Consumer Paying Freight

DEMAND AND SPECULATION

Last Corner Was Engineered by James Patton in 1910 and Netted Him Millions.

(By United Press.)

Chicago, Ill., Feb. 12.—The romance and tragedy of the people's breadstuff in the last 50 years is a story of fortunes made and lost; of speculation and suicide with the innocent consumer always paying the freight. Some times the grower benefitted some times not.

The rapid and sensational advance in wheat prices which has followed the war recalled to Chicago traders other wheat marks in years gone by. During the civil war, wheat at one time sold for \$2.35 in the Chicago grain market, while on the seaboard it could not be purchased cheaper than \$3 gold. The prices forced by the war lasted until 1867. From that time to 1883, wheat sold above \$1 every year. In the last 20 years, wheat brought above \$1 in 11 years—not continuously, but at times.

In 1872, the Franco-Prussian war, either by demand or speculation, forced wheat to \$1.61. Three years prior to that, Sept. wheat was cornered. No one now in the Chicago trade remembers just who did it, but records show that this corner sent wheat to \$2.47 per bushel.

The most noted corners of the last 30 years were those engineered by E. J. Harper, B. F. Hutchinson, "Joe" Leiter and James A. Patten.

Harper's corner in 1887 took wheat to \$1.16, when the corner collapsed and sent banks and speculators tottering. "Old Hutch," now dead, one of the most spectacular of the old time traders, engineered his corner in 1888. It sent wheat to \$2 a bushel. There was no serious attempt after that to corner wheat until 1898, when "Joe" Leiter tried. He put May up to \$1.85, made millions, and then tried to switch his corner to June and thereby lost a sum that he himself testified a few weeks ago totalled \$11,000,000. His father's estate, that of Levi Leiter, merchant prince, came to his aid and in later years Leiter recouped all his losses—but not in the grain pit.

The latest corner in 1909 was engineered by James A. Patten, Chicago trader, and Patten is believed to have cleared millions, how many not even his brokers ever knew. The record price in his coup was \$1.60. For two months after he closed his corner, cash wheat sold higher than the futures.

Patten ostensibly retired a few years ago and lives in a palace at Evanston, Ill. His gifts to colleges, hospitals and private charities total millions. The magnificent gymnasium at Northwestern University, Methodist institution at Evanston, was Patten's gift and bear his name.

Genuine Prescription For All Rheumatism

One That Does Cure or Money Back, Johnson's Drug Store

Rheuma—that is the name of the scientific prescription that is putting old rheumatism out of business.

Rheuma cures by driving the uric acid from the blood. It also acts directly on the kidneys and is better for them than most so-called kidney cures.

Porter Smith, Dobbin, W. Va., writes: "I have been a great sufferer from rheumatism for about 26 years. The disease had become chronic. I began taking Rheuma with little faith in its virtues, but was better from the first day I began its use, and at this time have no more pains."

Johnson's Drug Store and all druggists sell Rheuma, and no rheumatic sufferer can afford not to use it. 50 cents a bottle. Your money back if not satisfied.

Local Markets.

C. G. Clark & Sons are quoting the following prices on grain today, February 12, 1915.

Wheat \$1.50
Corn No. 4 Yellow 72c
Corn, No. 4 White 74c
Oats .55
Rye \$1.00
Timothy hay \$16.00
Clover hay 14.00
Oats or wheat straw 5.00

While Patten is "officially" retired, he maintains an office and is usually there when there is a "hen on" in the grain pit and frequently takes a "flyer" so he calls it, involving a mere matter of a few hundred of thousands. Patten's friends say that all his winnings in the wheat pit now go to charity.

The ladies of the Presbyterian church will give a buffet supper and a box social, in the basement of the church, next Wednesday evening. Supper served from 5 to 7. Public invited.

Society News

The Princilla Artclub of Falmouth was entertained yesterday by Miss Bessie Knotts. It was the anniversary meeting of the club and the following officers were elected: Miss Mariam Fry, president; Miss Ada McConnell, vice-president; Miss Freda Fisher, secretary, and Miss Sylvia Nelson, treasurer.

Mr. and Mrs. Edward Jackson, of Raleigh entertained the faculty of the Raleigh schools last evening at a six o'clock dinner and valentine party. The following were present: The Misses Gladys Aurelius, Zelda Mays, Una Greenwood, Gladys Walker and Prof. Taylor, Clifford Mitchell, and Mrs. O. W. Sox, and daughter.

The K. of P. dance last night was a most delightful affair. The dancers were entertained by the Princess dance trio and cabaret singers with what was conceded as the best dance music played in this city this season. The boys are to be congratulated in playing the latest up-to-the-minute hits and putting them into perfect dance time. The cabaret feature of the entertainers was highly complimented by the dancers. This same organization of local boys has been retained for the next K. of P. dance on Thursday, February 25.

Husbands of the women who are members of the Milroy Research club entertained their wives at the Milroy school auditorium last night with a musical program furnished by the Misses Martha Hogsett, Francis Frazee, Norma Smith and Louise Craige of this city. Miss Craige was the accompanist and Miss Hogsett and Miss Smith sang duets, solos and played piano solos. Miss Francis Frazee presented a number of readings, some in costume, which were immensely appreciated by the audience. Miss Smith and Miss Frazee gave some readings together. The whole program was the subject of much favorable comment and was very popular with the Milroy audience.

The friends of Jacob Weber, 523 West Fifth street, carried out a well planned surprise on him last evening remembering his thirty-fifth birthday anniversary. The guests were: Mr. and Mrs. Alva Newhouse, Mr. and Mrs. Henry Schrader, Mr. and Mrs. Harry Allen, Mr. and Mrs. Will Jones, Mr. and Mrs. Percy Wright, Mr. and Mrs. Ernest Carpenter and son Clarence, Mr. and Mrs. Marsh Wyatt, Mr. and Mrs. Frank Melwane and family, Mr. and Mrs. Louis Saddler and son Robert, Miss Cornelia Schriber, Mr. and Mrs. Herbert Gregory and daughter Mildred, Miss Nora Cochran and Claude Owens. He was presented with a beautiful rocking chair. A two course supper was served and the evening was spent with Rook and in guessing contests.

Amusements

The Princess will show a three reel Vitagraph comedy "Love, Luck and Gasoline" for the program tonight. It is said to be one of the best comedies ever produced and features those three stars, John Bunny, Lillian Walker and Wallie Van. A fast ocean going yacht, a motor boat a hydro-aeroplane and an automobile are used by the lovers to escape her parents. It is said to be a scream from start to finish. On Monday matinee and night the William A. Brady feature in four acts, "Mother" will be shown. The play of the same name is by Jules Eckert Goodman and Miss Emma Dunn is retained in the role of "Mother" the part she created in the stage production.

The Mystic will show a two reel Biograph feature "The Closing Web" for the first picture tonight. Allan Hale and Louise Vale are featured and it is said to be a dramatic picture telling a vivid story of society and one that will interest from beginning to end. The other is the eleventh of the series of Arthur Johnson pictures of "The Beloved Adventurer" series, entitled "The Serpent Comes to Eden." Tomorrow

row night the feature drama "Saved From a Life of Crime" will be shown. Dorothy Kelley and James Morrison are featured.

"A Lonely Salvation" is the title of the first picture at the Gem tonight. It is a Victor drama and features Mary Fuller and Charles Ogle. It tells a story of crime and reformation that is said to be very interesting. The second picture is a Powers comedy entitled "Sissy Dobbins, Oil Magnet." Edna Maison and Joe King are featured and the scenes of this comedy are laid in the oil district. The last is a drama "A Friend in Need." It is said to be a strong human-interest drama of the better kind. Tomorrow night the two part Eclair drama "The Girl Stage Driver" will be featured.

GOOD NEWS

Many Rushville Readers Have Heard it and Profited Thereby.

"Good news travels fast," and the bad back sufferers in Rushville are glad to learn where relief may be found. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with this tested remedy. Here is an example worth reading.

Samuel A. Brown, R. R. No. 10, Rushville, says: "I had a severe attack of backache and it got worse every day. Finally, the trouble got so bad that I could hardly raise my foot above the ground. When I stooped, I thought my back would break. Someone advised me to try Doan's Kidney Pills and I got a box, I was very much surprised at the prompt way in which they stopped the trouble. In a few days I was free from pain."

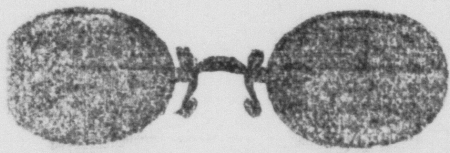

Price 50, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brown had. Foster-Milburn Co., Props., Buffalo, N. Y. (Advertisement.)

One Thing Lacking.

The Milroy Press says that it would like to see ten progressive farmers in each township in Rush county have a banner "acre tract" of corn apiece this year. The Press further states Rush county has the dirt and the climate and wonder if she has the capable farmers? There seems to be little doubt but that she has the farmers, too. She has all the necessary requisites to make banner corn acreage or a banner crop of anything else adapted to the county, except the one thing that would blend all of the mixed interests of Rush county farmers into some concrete achievements. That one thing missing is the county agent.

As sure as Rush county fails to take hold of this method for advancement, she is going to lag behind. Our forefathers in Rush county have handed down to us a rich legacy which we are supposed to preserve. We can't do it without applying twentieth century ideas. We can't continue to work with the implements, so to speak, of those who went before us. Although the general principles change little, their application is continually changing and Rush county farmers must keep astride with the times.

All this blare of trumpets about passing a law in Indiana for the relief of the unemployed is a waste of energy. Why not get at the seat of trouble? Why not ask the federal government to pass a protective tariff law so as to give the unemployed back their jobs?

But even at that, Mr. Taggart is probably not nearly so infamous for distrusting direct primaries as a panacea as he would have been if he had joined in with base demagogues who are trying to foist this reprehensible innovation upon our noble representative form of government. —Indianapolis Star.

Wouldn't Albert Jeremiah shudder

if he should happen to read that?

It has been revealed that the whip of the state Democratic machine is being cracked with vigor in the state senate, the upper branch of that Indiana body which all proclaimed would be a model of efficiency and perfect decorum after the "lesson" of 1913. One Democratic member felt the sting of the lash and "talked out" in school. He said that he was to be disciplined for voting against Mayor Bell's finance board bill. Sounds natural. Just like old Mr. Machine manipulates things.

+++++ What Our Neighbors Are Talking About +++++

They Still Say it

(Muncie Press)

Honestly, there are still a few Rip Van Winkles left in the country who talk about the tariff on a commodity being added to the price!

This, of course is to say that when the tariff on an article is removed or reduced, then the price falls by the amount of the reduction.

Why, then, has the retail price NOT been reduced on ANY of the hundreds of articles affected by tariff reduction under the Underwood law? Why did such prices NOT fall during the first nine months operation of the revision downward, before the European war began?

You remember the agonizing outcry we used to hear about the tariff on sugar being a tax on the poor man's breakfast table. The tariff has been substantially reduced on sugar. The reduction went into effect on January 1, 1914. The wholesale price of sugar was actually higher during the next seven months than at the time the reduction went into effect. The refiners, the sugar trust got cheaper raw sugar, it is true, from the importers than they had been able to buy from domestic

New York's Oldest Commuter Makes Same Trip For 68 Years

BY CALTON TEN EYCK.
(Written for United Press.)

New York, Feb. 12.—Small city residents who sometimes curse their street car service and wished they "lived closer to their work" have no kick coming when the Main street line cars fail to show up at the transfer corner. And in the towns where there are no street cars at all and the man who works downtown thinks fifteen blocks a long walk, the mile-from work "commuter" should hold back his troubles and think himself lucky.

At least, that's the way William Howland Hussey, New York's oldest commuter, would put it, for Hussey, who was 91 years old the other day, has traveled from 150 West 35th street to his home in East Orange, N. J., and back again downtown in the morning, nearly every day for the past sixty-eight years.

Last week Mr. Hussey became ill and, for the first time in many months, missed his daily journey over the Lackawanna and the ferry to his place of business. He has printed himself on being down to work early every morning, and his enforced absence from the office where he conducts a plumbers' supply business, has worried him considerably, say his associates.

During all the time that he has "commuted" Hussey has been in only one accident. Twenty years ago the train in which he was riding was derailed and almost ran into the Hackensack river. Outside of that, ever since 1857, when he began to make the trips from South Orange to New York, Hussey has traveled in safety.

New Yorkers refuse to get excited or trembled at night despite the dire predictions of Hudson Maxim, who delivered an address the other night before the Twilight club and calmly informed his auditors that a foreign army could conquer New York, Philadelphia, Boston, Washington and all the territory within a

radius of 160 miles of Peekskill, New York, in a few days.

Maxim drew a lurid picture of the fate of "fair womanhood" at the hands of an invader. "The entire country east of the Alleghenies probably will be Belgiumized with fire and sword, depredated, degraded and desolated by an invading army within a short time after the European war is over," he said.

Maxim wants the army and navy to utilize the latest war-making inventions and prepare for a big war.

But the navy yard and coast artillery pasts are not worrying.

A club with the motto "Learn, Eat, Talk" and to which no rich woman or "kind ladies" are to be admitted will open next week in the Murray Hill district. The club is for business women only. Miss Theodore George, of the Women's Municipal league, who is interested in the club, said business women had learned it was impossible for them to mingle happily with women of leisure, and they wanted a club all of their own.

Little Girls: Take warning. Because she was a good little girl and always sat quiet in the stern sheets when she went fishing with Jacob Hyman, a former Broadway jeweler. Miss Bertha Gretsch, now 23 years old, inherits one half of his estate, amounting to \$50,000. Hyman lived with the Gretsch family when Bertha was a little girl, and he had one hobby, fishing. Bertha was the only child who sat still in the boat and didn't bother the fish.

The Mormon cause profited in Brooklyn last week. Instead of the gray-bearded elders, the Utah church sent two fair daughters to fascinate probable converts. Miss Gertrude Phelps and Miss Edna Crowther, comely princesses of the Salt Desert, are to spend eighteen months in New York missionary work.

STRATEGIC MOVE IS IN THE OFFING

Russians Will Withhold Details of Operations Pending One Which Will Solve Struggle.

GERMANS ARE DESPERATE

(By United Press.)
Petrograd, Feb. 12.—The war office today in explaining that certain of the Russian forces have been withdrawn from their advanced positions in east Prussia pointed out that it will be necessary for the next few days to withhold all details of operations in this section.

The reason given was that "we are upon the eve of a great operation which must solve definitely the struggle now in progress there." Just what is planned is a closely guarded secret.

The Germans continue their desperate efforts to gain a foothold in the various Carpathian passes but so far without success.

WHO WON THE \$1,000 AND WHY?

In spite of the poorest corn year ever known, many farmers finished in our contest for the ten prizes of \$100 each for the best ten full-acre yields of shelled corn.

Grown on Bowker's Fertilizers

in Ohio and Indiana; and the ten prize winners secured yields averaging 96.74 bushels shelled corn per acre. The average yield of these two states according to Government Bulletin 641, is 36 bushels, while the United States average yield is 25.8 bushels. In other words, by using good seed, good cultivation, good sense and good fertilizers

These men nearly trebled their state yield and nearly quadrupled the United States yield.

Good work! and good agriculture! Their names:
First \$100 R. E. McAhren, Manilla, Ind. yield 115. bu.
Second \$100 P. P. Pope, Tontogany, Ohio. yield 108. bu.
Third \$100 O. L. Hart, Greenville, Ohio. yield 104.5 bu.
Fourth \$100 W. A. Groshams, Hamlet, Ind. yield 103.5 bu.
Fifth \$100 Norris McHenry, Elizabethtn, Ind. yield 93. bu.
Sixth \$100 W. A. Withrow, New Richmond, Ind. yield 91.7 bu.
Seventh \$100 Calvin Collier, Bellevue, Ohio. yield 91.5 bu.
Eighth \$100 W. A. Westfall, Poseyville, Ind. yield 89.9 bu.
Ninth \$100 Valentine Bender, Poseyville, Ind. yield 87.1 bu.
Tenth \$100 Wm. Frederick, Corydon, Ind. yield 82.5 bu.

ARE YOU STRONG ENOUGH TO WORK?

Mrs. Hubbard Tells How Vinol the Famous Cod Liver and Iron Tonic Built Her up and Made Her Strong.

Covington, Ky.—"I was in a general run-down condition and suffered from a bad cough. I have a family of four, and after working for a while around the house I would get so tired I would have to sit down and rest and sometimes it seemed as though my back would break.

"I tried cod liver oil emulsions and other remedies but did not seem to get any help. Finally one day I saw Vinol advertised and tried it. I soon noticed a decided improvement, and now it has built up my health and strength."—Mrs. ALEX. HUBBARD, Covington, Ky.

Vinol is a constitutional remedy for all weak, nervous and run-down conditions of men, women and children.

In a natural manner this delicious cod liver and iron tonic creates a hearty appetite, aids digestion, makes pure, healthy blood and thus creates strength for the run-down and debilitated. We have never sold in our store a more dependable remedy for coughs, colds and bronchitis than Vinol.

Try a bottle, and if it doesn't help you we will return your money.

F. B. Johnson & Co., Druggists, Rushville, Ind., and at leading drug stores everywhere.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

REAR END OVERHAUL

BRAKE RELINING

HOW DOES THE REAR AXLE OF YOUR CAR "SOUND" AND ACT?

Is it noisy, loose and does it seem to "gather together" before the car moves, instead of acting noiselessly and as a single unit?

Every car's "rear end" should be overhauled once a year and the brakes should be relined—if you want to enjoy safe, "worry free" motoring and have brakes that HOLD.

Now is the time to have US do the work—here in a first class shop where ALL the work is done by skilled mechanics.

Our Charges are Moderate.

GILMORE LAYS DOWN THE RULES

President of Feds Says More Attention Will be Paid to Discipline This Year

WORM BEGINNING TO TURN

On Account of Other Things he Was Too Busy to Look After the Playing End

BY HAL SHERIDAN
(Written for United Press.)

New York, Feb. 12.—Already the worm is beginning to turn. The halcyon days when a ball player bought two or three automobiles, put on parties for that one in the third row back and showed up at the park the next day ready to fight his grandmother are just about gone. To the popular tune of Jim Gilmore's funeral dirge they will be borne out by saddened ball players.

They were dying in the big league two years ago. Then came the Feds and with the siren clink of many dollars lured the slaving toilers from their first loves, promising much gold. The players got the gold and the headaches.

But, as hereinbefore chronicled, the ancient worm has done the Vernon Castle. The announcement comes from no less a personage than James A. Gilmore himself, who, when he isn't calling Ban Johnson names, presides the Federal league. List to Jeems!

"On account of the many other things that had to be attended to last season we had little time to look after the playing end, (Kansas City and St. Louis players please copy) of the game and enforce discipline. But we know some of our players failed to display the same activities they did while members of organized ball and also do we know that some of them didn't keep in such condition as to give their best services to the club.

"The Federal league has been a great benefit to the ball players, and hope they will realize it. We have given them a chance to draw bigger salaries than ever before. And, besides, we have been the cause of their getting better treatment from Organized Ball.

"I don't say any of our players 'laid down' in their playing, but they lacked the aggressiveness they showed with Organized Ball and we hope to remedy this next season.

"We are going to have discipline!"

And this from a man who but a few months ago proclaimed to the wide, wide world that a ball player was a slave and subjected to unjust persecutions on the part of his employers and that in the Federal league the poor ball player would find a haven of rest and free content!

A FLOCK OF BUGGIES.

A horse could hardly be blamed for frightening at a "flock of buggies" such as scoured down on Beale Brothers Plumbing company's delivery horse as it stood hitched in front of the company's building 106-108 North Perkins street yesterday afternoon. The buggies were stationed across the street, backed up against the curbing with the shafts up in the air. A strong gust of wind suddenly struck them. They all moved in a body across the street at a good pace. One struck the Beale horse in the flank and just as the animal started to lunge forward, another buggy passed right "under the horse's nose."

Truly, the poor horse was "in a box." Soon some men came to its rescue, succeeded in quieting it and moved the buggies away.

Many People In This Town never really enjoyed a meal until we advised them to take a

BOARD OF COMMISSIONERS RUSH CO.

by Allen R. Holden, Auditor.

Feb 12 1915

NOTICE OF BOND SALE

Notice is hereby given that sealed bids will be received at the office of the Treasurer of Rush County, Rushville, Indiana, up to the hour of 2:00 p. m.

FEBRUARY 23, 1915.

For the purchase of fifteen thousand six hundred dollars (\$15,600) Macadam Road Bonds.

Said bonds will be issued in 20 equal series of two bonds each, bearing dates of February 20, 1915. Each bond for the principal sum of \$390.00, bearing interest at the rate of 4 1/2 per cent per annum.

First series principal and interest due and payable May 15, 1916, and on each anniversary principal and interest each six months thereafter until all are paid.

Bonds are payable to Anderson Township, Rush County, Indiana, and issued for the purpose of constructing the Enoch Spurgeon at al. Macadam Road.

Bonds will be sold to the highest and best bidder for not less than their par value.

The right is reserved to reject any and all bids.

J. O. WILLIAMS, Treasurer Rush County, Ind.

BILL IMPORTANT FOR TEACHERS

Measure Introduced Today Will be Hailed With Delight by Those Who Plan to Enter.

ARE MANY NEW PROVISIONS

Prospective Teacher Would Have to Take Examination Again Only on Subject Failed on.

(By United Press.)

Indianapolis, Feb. 12.—Senator Edward P. Elsner (Dem.) of Seymour today introduced a bill which he said was important for the teachers of the state. It has, he said, the approval of Charles A. Greathouse, state superintendent of public instruction. The details of the bill are many. It concerns teachers' licenses and success, grades and takes up in details the matter of examinations and qualifications.

All applicants for licenses in elementary school subjects may choose under the bill whether they will have their papers graded by the county or state superintendent. Before any applicant is examined he must submit to the county superintendent a certificate of good moral character from a school trustee of the county then in office.

Applicants for licenses in high school subjects would in all cases send their papers to the state superintendent for grading.

The bill would lessen the expense for applicants. Under the present law they must pay \$1 as a fee to cover expenses of the examination. The fee under the bill is fixed at 75 cents, which, according to Mr. Greathouse, is sufficient to pay all expenses.

One provision that will be hailed with pleasure by prospective teachers is that allowing them in case of failure in only one subject to take again the examination on that one subject at the next regular examination of the current year. At present, if an applicant fails in one subject, he must take again the examinations for all the subjects.

"The general average of the branches shall indicate the applicant's standing, which shall be the basis of issuing a license," the bill states, "which shall be the basis of issuing a license to a teacher without experience. The general average of the branches and the percent placed upon the applicant's school room success shall each count one-half in terminating the average of a teacher who is entitled to a success grade."

RUSHVILLE TEAM PLAYS AT MADISON

Hard Game Expected as That Team is Out For Revenge For Defeat Handed When Here.

LOCALS EXPECT TO REPEAT

The Rushville high school basketball team left this afternoon for Madison where the team plays a return game with Madison tonight. The Madison team put up a fast game here some weeks ago and was defeated 37 to 19. The score was close throughout and Rushville pulled away in the last moments of play. The team has been practicing every night this week in preparation for the game and Coach Burns hopes to again humble the Madison boys.

The team has not had very great success away from home and the strange floor at Madison may prove a big handicap. Madison had been going good until they ran up against the locals and that team will be out for revenge tonight. Interest here outside of the Rushville—Madison game centered on the Shelbyville—Connersville game at Shelbyville. Shelbyville is expected by a majority of the fans to win by a large score.

\$3000.00 FIRE PREVENTED

The House the Red Jacket Saved

Read This Letter:

"Several years ago I called on Lane & Evans to buy a pump and they almost forced me to buy one of your Fig. 28 Red Jacket Double-Acting Force Pumps and fifty feet of hose when I only intended to buy a cheap set length pump. Mr. Lane put up such strong argument on 'fire protection' that I followed his advice and bought the Fig. 28, little thinking that it would be of any service to me in that respect.

Shortly after the pump was installed, my barn caught fire and had it not been for this pump and hose and the thoughtfulness of Mrs. Barnett, my barn, house and all buildings on the place would have been destroyed."

CLAUD BARNETT
Milan, Mo.

RED JACKET "SO-EASY-TO-FIX"

Double-Acting Force Pump. It cost Mr. Barnett a few dollars more but was easily worth it. Have you proper fire protection? If not, we will help you to secure it. Call upon us.

No Civilized Man Wants to Live Where There Are No Churches—Go to Church!

GO TO CHURCH!
 The church is the best institution the world has ever known from every standpoint—moral, economic and political. It has changed the world from HEATHENISM TO CIVILIZATION, from SLAVERY TO FREEDOM, from MIGHT TO RIGHT, from DARKNESS TO LIGHT, from MISERY TO HAPPINESS. Compare the conditions prevailing in heathen lands with those of Christian countries; the forms of government in the dark ages to those of the Christian lands today.

CAN ANY ONE BELIEVING IN GOD GIVE ANY REASON FOR NOT GOING TO CHURCH? THE CHURCH STANDS FOR THE PURITY AND SANCTITY OF THE HOME, THE PURITY AND RECTITUDE OF PERSONAL LIFE, THE HIGHEST MORALS, THE BEST LAWS. IT STANDS FOR JUSTICE, RIGHTEOUSNESS AND GOOD GOVERNMENT. IT IS THE GREAT INSTIGATOR AND PATRON OF ALL TRUE BENEVOLENCE. SKEPTICISM NEVER FOUNDED AN ASYLUM. THE CHURCH, NOT INFIDELITY, HAS FOUNDED THE GREAT ELEEMOSYNARY INSTITUTIONS OF THE LAND.

The value of the church cannot be estimated. No civilized man wants to live where there is no church. He wants it for its influence, if for nothing else. Take the church out of any town or city and the citizen will take himself out. Take the church out and all evil will prevail, and from an economic standpoint property becomes worthless.

THE MISSION OF THE CHURCH IS TO SAVE THE WORLD. DOES IT MERIT ANYTHING AT THE HANDS OF ITS PRO-FESSED FOLLOWERS? IF SO, LET US STAND BY IT AND AT-TEND ITS SERVICES. IT IS A DUTY AS WELL AS A PLEAS-URE. INDIVIDUAL RESPONSIBILITY WILL NOT DOWN. LET US ASSUME IT CHEERFULLY AND RESPOND VALIANTLY.

Be sure to GO TO CHURCH next Sunday!
 GO EVERY SUNDAY!

Services In The Churches Sunday

+Regular services at St. Mary's Catholic church, conducted by the Rev. M. W. Lyons. Masses at 8:00 and 10:00 a. m. Vespers at 3:00 p. m.

+There will be preaching every Sunday at the Glenwood M. E. church. Morning service at 10:30 o'clock, evening services at 7 o'clock and Sunday school at 9:30 o'clock.

+“The Curse Upon Meroz” will be the subject of the sermon by the Rev. A. W. Jamieson at the United Presbyterian church Sunday morn-ing. The evening subject will be on the topic, “Christianity and Educa-tion.” Other services will be as usual.

+The Rev. C. M. Yocum will preach at the Main Street Christian church Sunday night on the subject, “The Arch of Triumph.” The usual preaching services will be held in the morning at ten-thirty o'clock, with Sunday school at nine-fifteen o'clock.

The Gleaner class of St. Paul's M. E. Sunday school will meet Sat-urday afternoon at two-thirty o'clock with Miss Sadie Williams at 425 North Perkins street.

+The Rev. D. Ira Lambert, pas-tor of the First Presbyterian church, will conduct the usual services at this church Sunday. At the morning service he will preach on the subject “The Church—the Body of Christ.” The subject of the evening sermon is “God's Valentine to a Lost World.” All other services at the usual hours.

+St. Paul's Methodist Episcopal Church, A. D. Batchelor, pastor. Sunday school, 9:15 a. m., Leonard Clark, superintendent. The pastor will preach at 10:30 a. m. on the subject, “Caring For Souls.” At

night special Lincoln services will be held. Miss Frances Frazee will recite and the pastor will make a short talk. Special music will be provided. An offering will be taken for the Jubilee Fund of the Freed-men's Aid Society. At 2 p. m. in the lecture room of the church a meeting of the men of the church will be held. The meeting is called to organize for the personal evan-gelistic canvass. The meeting is im-portant. All men who are members of the congregation are urged to be present. Tuesday 2:30 p. m. the Ladies Aid Society will meet with Mrs. R. C. Hargrove, 120 West Sev-enth street—assistants to the hostess-es, Mrs. S. L. Innis and Mrs. Winnie Dill. Thursday, 2:30 p. m. the Wo-man's Home Missionary Society will meet with Mrs. A. T. Mahin, 404 North Harrison street. Mrs. Samuel Innis, leader. Thursday, 7:30 p. m. mid-week meeting for Bible study and prayer.

+Christian Science services ev-ery Sunday morning at 10:45 and every Wednesday evening at 7:45 at 405 North Harrison, northwest cor-ner of Fourth street.

+The usual services will be held Sunday at the First Baptist church. The pastor, the Rev. S. C. Hunting-ton will preach both morning and evening. The subject of the morn-ing sermon is “Great Men” and in the evening he will speak on “The Unclean Thing.”

New Treatment for Croup and Colds
 Relieves by Inhalation and Absorption. No Stomach Dosing.
 Plenty of fresh air in the bedroom and a good application of Vick's "Vap-O-Rub" Salve over the throat and chest is the best defense against all cold troubles.

MRS. WILLIAMS' LONG SICKNESS

Yields To Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.:—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

SENDS PROTESTS TO THE GERMANS RAISE MONEY FOR MONUMENT

State Department Objects to Interference With Official Communications to Luxemburg.

U. S. MINISTER SPEAKS OUT

Henry Van Dyke Demands an Apology and Says That Germany Must Offer Explanation

(By United Press.) Washington, Feb. 12.—The state department today protested to the German government against interference with Minister Van Dyke's communication between Holland and Luxemburg.

It did not appear that Van Dyke's mail was tampered with; it was simply turned back. A subordinate's overzeal was blamed but it was felt the incident deserved notice.

A dispatch from The Hague, where Henry Van Dyke, United States minister to The Hague and the Grand Duchy of Luxemburg, is stationed, said this morning that Minister Van Dyke had appealed to the state department at Washington to protest against German interference with his duties as minister to Luxemburg.

He said his diplomatic communications with Luxemburg have been cut off by the German military commander at Trier (Treves), who had refused to permit his letters to pass because they were sealed with the seal of the American legation.

Dr. Van Dyke has been trying for four days, through the friendly medium of the German minister at The Hague, to obtain an explanation from Berlin of what he considers an invasion of his diplomatic privileges, but no answer has come from the German capital.

"That statement of facts is correct," said Dr. Van Dyke. "The action of the German commander at Trier may have been a mistake of ignorance, but it must be explained and apologized for."

"Luxemburg is a very small country of 250,000 inhabitants, but the peaceful duties with which the American government has charged me toward that country are just as sacred as if it were a hundred times as big."

"It was the first of the neutral countries to be invaded and appears to be threatened with a failure of the food supply."

"I cannot consent to interference with my duties toward Luxemburg by any power in the world except that which conferred them upon me, namely the government at Washington."

PORTLAND CLEANS UP FOR COMPANY

City Gets Ready in Anticipation of Thousands of Visitors Going to Expositions

PROCLAMATION BY MAYOR

(By United Press.) Portland, Ore., Feb. 12.—Today was "clean up" day in Portland by proclamation of Mayor Albee in anticipation of thousands of visitors going to and from the California expositions.

Workingmen, business men, housewives and thirty thousand school children joined in making Portland a "spotless town."

War was waged on untidy lots and buildings and grounds were put in the most attractive condition.

Popular Subscription Under Way as Tribute to Red Cross Nurse Who Lost Her Life

DIED FROM BLOOD POISONING

Twenty-five Anniversary of Literary Career of A. L. Kuppin Spent in Trenches

(By United Press.) Petrograd, Jan. 25. (By Mail to New York).—A popular subscription is being raised in Odessa for a suitable monument to the remarkable heroism of Mlle. Ludobmila Alexinsky, of the Red Cross.

In the battle of Gumbinnen in August, while helping to carry a wounded man out of the line of fire, she was hit by a bullet in the hand. Immediately after her recovery she was transferred to the army in Galicia where she was present in three battles, during one of which she was under fire for 17 hours.

On another occasion a doctor whom she was assisting was killed by a shell, his body being blown against Mlle. Alexinsky with such force that she was stunned. After a brief rest she again returned to the front and helped to succor the numerous German wounded left behind at Ragow.

Later she went to South Poland, and at the storming of Petrokov she was again wounded, this time in the shoulder. Blood-poisoning ensued and she died in great agony.

Mlle. Alexinsky was the seven-tenth Russian Red Cross nurse either killed in battle or died of wounds.

The twenty-fifth anniversary of his literary career was spent by A. L. Kuprin, one of Russia's most popular authors, in the trenches along the Vistula. It was while a pupil of the Moscow Military School that Kuprin began his activities as a short-hand writer. His first attempt nearly resulted in his expulsion from the school, the director finally consented to his continuing his studies only on condition that he relinquish the idea of becoming an author. "It is much harder to be an efficient officer than a mere writer," observed the director.

Kuprin was graduated with the rank of lieutenant, but resigned shortly afterwards. He enlisted in the army again on the outbreak of hostilities with Germany.

TO REMOVE EVERY SIGN OF DANDRUFF

If your hair is not pretty; if it is losing color, too dry, full of dandruff falling out, or if your scalp itches, you can quickly overcome all of these conditions at a trifling cost with this simple home treatment.

Just get from Johnson's Drug Store some Parisian Sage, a most helpful invigorating tonic that supplies every hair need. It is easily applied and absolutely harmless. Improvement begins with the first application for Parisian Sage not only nourishes the hair roots but stimulates your hair to grow long, thick, soft and fluffy, and lustrous. It immediately removes every bit of dandruff; stops itching scalp and surely gives your hair new life and beauty.

(Advertisement.)

TILLAGE WILL HELP

Roll the wheatfield as soon as it will bear a team upon it. Follow this rolling immediately with a light harrowing. Better use a "weeder" if you have one. If you have a harrow with adjustable teeth, throw the teeth back at an angle of 45 degrees and harrow the field, going back and forth parallel with the wheat rows. This harrowing will not injure the wheat roots, but will break up the crust and make a surface mulch. This surface mulch will prevent much evaporation and save thousands of barrels of water. If you do not happen to have a roller, or if you do not think it wise to roll the wheat, harrow just the same. It pays.

Plantfood Makes Crops

The tiny wheat plant must have special nourishment. It must have a liberal supply of readily available plant-food of the right kind to maintain it in vigorous growth. Big crops demand enormous quantities of plant-food. The biggest help you can give your wheat crop is to apply 100 pounds per acre of Swift's Steamed Bone and Potash, analyzing 2 per cent Ammonia, 8 per cent available Phosphoric Acid, and 2 per cent Potash. This should be broadcasted or distributed on the wheat through the fertilizer attachment of the wheat drill, with the lime spreader, or other fertilizer distributor. If the wheat drill is used, leave the discs suspended so that they will not cut the wheat plants. Apply this fertilizer before the field is rolled. Harrowing it will work it into the soil where the roots make best use of the plant-food. You can carry on these operations until the wheat is up 4 inches in height without injury to the crop. Fertilizer feeds the crop. It contains no weed seeds.

Help For Grass and Clover Seeding

If grass and clover seed is sown upon the wheat field in early Spring, this early cultivation will bury the seed sufficiently deep to insure good germination. The addition of available plant-food in the forms mentioned, will greatly increase the chances of a successful "catch of grass."

By such treatment, weak wheat will be greatly benefitted and materially assisted towards a profitable yield of superior quality of grain. Top dressing pays.

Try it on your Oats and double the yield.

Delivery By Schedule vs The Old Haphazard Way

We are independent, also progressive. After watching the operations of union delivery service in other cities, after writing many letters and talking to many people from towns where they have such service we are more than glad to have the opportunity for giving our customers the same kind of service.

Every woman in Rushville knows just when to expect the postman with the mail. With the Benson system in operation the grocery order will come in the same prompt way.

Which is the better, to know exactly when to expect an order, or to have it delivered in maybe ten minutes or maybe two hours after ordering?

As to the sanitary feature, the central station, according to our contract must be kept as clean as any store in town and probably will be cleaner than some. Covered wagons with double decks will be used and orders will be handled in a more sanitary manner than when piled in an open wagon.

We leave it to the judgment of our customers to decide which is the better.

COMBING WON'T RID HAIR OF DANDRUFF

The Easiest and Best Way is to
Dissolve It.

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you want to preserve your hair, do by all means get rid of dandruff, for nothing destroys the hair more quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everyone notices it. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

ALUMNI DAY IS OBSERVED

Many Graduates of Princeton Return for Celebration

(By United Press.)

Princeton, N. J., Feb. 12.—"Alumni Day" was observed here this afternoon by a large representation of the graduates of Princeton University. A general meeting of the former students began shortly before noon at which addresses were delivered by President Hibben and others. Luncheon was served in the Graduate College. "Alumni Day" is an idea of the graduates council of the university, who believed that many of the alumni would welcome an opportunity to visit their Alma Mater when there were few outside attractions.

MICHIGAN G.O.P. IN CONVENTION

Republican Meet to Nominate Candidates for Supreme Court and Regents of University

ALSO BOARD OF EDUCATION

(By United Press.)

Grand Rapids, Mich., Feb. 12.—Michigan republicans met today in Grand Rapids for the annual spring convention of the party. Candidates were to be nominated for the following offices:

Two justices of the supreme court, superintendent of public instruction, two regents of the University of Michigan; one member of the state board of education; and two members of the state board of agriculture.

CARNIVAL AT TAMPA

(By United Press.)

Tampa, Fla., Feb. 12.—The annual "Gasparilla Carnival" similar to a mardi gras, of Tampa opened today. It will be a "dry" event, too, anything stronger than grape juice being barred. The Rotary Club is in charge of the various events.

TO INTRODUCE WILSON.

James E. Watson of this city will introduce Henry Lane Wilson, former United States ambassador to Mexico, when the latter speaks at the Columbia club in Indianapolis tonight on "Mexico." Mr. Watson recently replied to President Wilson's Indianapolis speech at the Columbia club.

REDRAFTS BILL FOR UNEMPLOYED

As Proposed Law Now Stands it
Calls For Service Commission
to be Appointed by Judge.

MAY BE INTRODUCED SOON

Provides City Councils May Create
Work Without Advertising For
Bids as is Now Done.

(By United Press.)

Indianapolis, Feb. 12.—The committee which has been working over the city bill designed to solve the problem of the unemployed in Indiana has redrafted the measure and finally has it ready for presentation to the legislature. The idea which had its birth in Kokomo has quickly spread to all parts of the country where legislatures are in session and many requests are being received for copies of the bill and an explanation of its central idea. It has already been accepted as one of the most carefully thought out methods of meeting the unemployed problem.

As redrafted, the bill calls for an unemployed service commission to be appointed by the circuit judge. It consists of five men. The commission will decide for each county whether an emergency exists warranting the employment of the many unemployed in the city and county on the public works of the county or city.

Should the commission determine that an emergency exists, it communicates the fact to the city or county councils. The bill empowers these councils to order the board of public works or board of county commissioners to undertake such work as they have contemplated doing without going through the requirement of advertising for bids.

The commission is empowered to conduct a registry for the unemployed, determining the relative merits of the men and women out of work. It recommends lists of unemployed to the board.

The bill provides that the men thus employed shall be paid a wage slightly less than the prevailing wage, but not more than 20 cents per day under the prevailing wage.

Within the next few days the bill probably will be introduced. It was drafted under guidance of the committees of the Kokomo and Indianapolis commercial bodies by W. O. Conway, an attaché of the state bureau for legislative information.

SCHOOL OF POLITICS.

(By United Press.)

Evansville, Ind., Feb. 12.—Young lawyers and public officials are applying for "chairs" in a new school to be opened here. It is an evening "school of politics" for girls, to be conducted by the Woman's Franchise league.

MAYOR BEBOUT BEFORE CLASS

Answers Question of High School
Civics Class Regarding City
Government This Afternoon.

PRACTICAL PHASE OF WORK

School City With Two Tickets Being
Organized in the Junior High
School-Election Soon.

Mayor C. L. Bebout was up before the civics class of high school seniors at Graham school this afternoon from 1:20 o'clock to two answering some rapid fire questions concerning city government. This is only a part of the practical work that is being done in the civil government classes not only in the high school but in the junior high school as well.

It was Miss Genevieve Brown's English history class that Mayor Bebout instructed on the practical methods applied in city government this afternoon. They asked him about improvements and also displayed some of the knowledge they had gained regarding city affairs.

Charles Brown, deputy postmaster, will talk on postal regulations to the civics class in American history taught by Earl Marlatt in the near future. The practical side of the civics work is appealing to the pupils, it is stated.

A school city is being organized in the junior high school, which consists of the four classes in the seventh and eighth grades. They are studying a text book entitled, "Preparing for Citizenship," which was used only by the teacher last year but which was found of such value that all of the pupils are using one this year. One of the purposes of the school is to study the community in its relation to the city.

There are two tickets out in the junior high school and an election will take place soon. Glen Wood has been selected the candidate for mayor by both sides so that his prospects for election are fine, considering the fact that he is a fusion candidate.

Sanitary officers are to be named later and they will make inspections of the school rooms. Health work and street improvement are some of the topics which are to be discussed in the junior high school.

K of P. WORK.

The Knights of Pythias will have work in the Rank of Esquire next Monday night on two pages. The sketch which was to be given has been postponed.

THE AUTO-OILED WINDMILL

WITH DUPLICATE GEARS RUNNING IN OIL

Every bearing is constantly flooded with oil. Two quarts of oil in the gear case of this 8-foot auto-oiled windmill will keep the gears and every bearing flooded with oil for a year or more.

The galvanized steel helmet covers the gears, keeps out rain, keeps out dust, keeps in oil. The mill needs oiling but once a year.

There is a windmill, known the world over as "the windmill which runs when all others stand still." This new windmill with gears and bearings flooded with oil runs in much less time than that well known windmill.

The two large gears, which lift the load straight up, are each independent of the other and each is driven by its own pinion on the main shaft and must take its full load at all times. The auto-oiled windmill, with its duplicate gears and two pinions lifting the load straight up, is unbreakable. Every 8-foot mill is tested under a pumping load of 3000 pounds on the pump rod. For the large sizes the load is proportionately greater. We know that every one of these windmills is unbreakable. We venture the assertion that this is the most nearly perfect, best made, best tested, best oiled, most nearly perpetual, automatic and self-sufficient of any machine of any kind ever made for farm work and the most nearly fool-proof.

There is no friction on any part of the furling device when the mill is running and very little when the wheel is furled.

A small child can easily furl this windmill or an automatic regulator can take care of it. One of these mills has been furlled 10,000 times in one day by a man on our premises—more times than it would ordinarily be furlled in 30 years of service.

A hand brake, of the automobile type, is used, and it always holds. The gear case contains two pairs of gears and the supply of oil. From this gear case the oil circulates to every bearing in a constant stream. It flows out through the friction washers in the hub of the wheel and is automatically returned to the gear case. Not a drop of oil can escape. It is used over and over. So long as there is any oil in the gear case the gears and every bearing will be flooded with oil.

If you are tired of climbing a windmill tower; if you are tired of buying repairs and having them put on; or, if you are tired of waiting for a big wind, let us furnish you an unbreakable, self-oiling, over-going mill to go on any old tower. It costs but little and you will get the difference between no water in a light wind and an abundance of water in almost no wind. The flooding of all the working parts with oil, the perfect balance of the wheel and vane on the tower, the very small turntable on which the mill pivots and the outside furling device make this difference.

Now there is no objection to a high tower. Have as high a tower as you need to get wind. You don't have to climb it. Your dealer can come once a year and put in oil, if needed, and inspect the mill.

Running water purifies itself—stagnant water, standing water, collects and retains impurities. If you pump from your well constantly all the water it can spare, the water that comes in to take its place will be pure. If the water in your well stands until you happen to want some, and you pump but little, then it is likely that surface water will flow into it and carry in impurities. The unsafe well is the one that has standing water. A flowing stream is the thing to be desired.

The auto-oiled windmill makes all this possible as it can run from one year's end to the other with practically no wear and no cost. If interested, write Aermotor Co., 1146 So. Campbell Ave., Chicago. Why not have flowing water, cool in summer and warm in winter, always fresh and pure? It will cost next to nothing. It will give health to your family and stock. Let the water run into a good size reservoir and raise all the fish of the choice kinds your family can eat, and have water to irrigate your garden and make it raise many times as much as it would otherwise. Water costs nothing. Use it. To let it stand is to abuse it.

SUIT OUTGROWTH OF RECEIVERSHIP

Special Judge Hears Evidence in
Case in Which L. G. Vannice
Seeks \$200 and Camera.

CLAIMS THAT SUM IS DUE HIM

Was to be Turned Over by Receiver
C. A. Frazee But A. P. Walker
Filed Objections.

Special Judge Raymond Springer, of Connersville, heard the case of L. G. Vannice against A. P. Walker today in the circuit court. The case is the outgrowth of the Walker receivership, Vannice alleging that he has \$200 due him from the receiver for services rendered, and the right to a camera valued at \$120.

When the affairs of Walker were in the hands of the receiver, Charles A. Frazee, Vannice was employed by the receiver to assist in the work of preparing a catalogue for a cattle sale and other work around the Walker farm. He claims to have been paid in part by the receiver but has a balance coming of \$200, and also the camera. According to the testimony, Vannice was employed at the rate of \$100 a month. The money was paid by the receiver, but Walker objected to the final report and the \$200 and camera are in the hands of the clerk of the court awaiting the outcome of the case.

The defense maintains that Vannice was paid sufficiently for the services rendered and the right of the receiver to pay him the additional money is questioned. Walker maintains that he bought the camera, paying for it out of his private funds, while Vannice stated on the witness stand that Walker paid for it and that it was then charged up to their business account and that he eventually paid for the camera.

According to the testimony, when Charles A. Frazee was appointed receiver the camera was turned over to him under protest, Vannice maintaining that it was his property and did not belong to the partnership. Walker and Vannice operated the Jersey Isle stock farm during the years 1911, 1912, 1913 and part of 1914.

The defense also showed that as soon as the Walker property was turned over to A. L. Winship for settlement the services of Vannice under the receiver ceased and that the money he received previous to this time was all that he had coming. Judge Springer took the case under advisement following the conclusion of the evidence.

L. L. Broadbuss, also of Connersville, was here today hearing the partition suit of Day against the Schlichte estate. This case has been hanging fire since 1909 and he expected to hear the evidence today.

MINE FRENCH TRENCHES

Germans do Not Take Advantage of
Opportunity, Paris Says.

(By United Press.)
Paris, Feb. 12.—Severe fighting continues to the south of La Boisselle where the Germans have succeeded in exploding a mine under a section of the French trenches. Despite this fact it was officially announced here today that the French are maintaining all of their positions there and that the Germans were unable to take advantage of the destruction.

John Newman has filed an account suit against Harry Colter, demanding \$1600.

PLAN TO HOLD BARBECUE

Milroy Business Men's Association
is up and Doing.

The Milroy Press this week announces that one of the plans of the Milroy Business Men's association that it hopes to carry out is to provide in the near future a corn show for Richland, Orange and Anderson townships, together with a big barbecue and all day entertainment for everyone in the community. It is stated that the program will include speeches by some prominent men, with music and moving picture shows. The movement, it is said, is only in its infancy to make it a day long to be remembered in southern Rush county.

JOHN WORTHINGTON IS NEW P.O. CLERK

Announcement Made Today That
Order For More Help at Local
Postoffice is Issued.

APPLICATION LAST AUGUST

After several months of "watchful waiting" Postmaster G. P. Hunt has succeeded in getting through the postoffice department an order calling for a third clerk in the local office. John Worthington is the man to get the position and he will take up his duties Monday morning.

Business in the local postoffice has increased to such a great extent that a third clerk has long been needed and last August Postmaster Hunt made application for the third clerk. The order has just been made and is expected to help the local force wonderfully in the handling of business. The examination for the position of clerks and carrier was held last May and at that time Mr. Worthington received the highest grade of any of the applicants. His grade is said to have been the highest ever made in a test for a position at this office.

Mr. Worthington, the new clerk, is a well known young man of this city, and for the past two years has been employed at the Giffin Dry Goods store.

Man Accused of Stealing \$180
From Martin Kelley Evidently
Given "Third Degree."

WITNESSES ALL EXAMINED

Business before the grand jury was considerably lighter today as compared with other days this week. All of the witnesses called by the grand jury have been examined and Sheriff Cavitt has no more to summons. The grand jury took up the case against Omer Brown today. Brown is held in jail on a grand larceny charge, it being alleged in an affidavit that he stole \$180 from Martin Kelley.

Brown was evidently given the "Third degree" by the grand jury as he was before that body for over 3 hours. He was brought before the grand jury about eleven o'clock this morning and at three this afternoon had not completed his testimony. It was expected that other witnesses on this case would be called.

ELECTRICITY TO DISPLACE STEAM

Pinnell-Tompkins Lumber Co. Will
Install Individual Motors and
Use City Current.

EXPENSE OF ABOUT \$3,500

Combined Horse Power of 22 Motors
Will be 152—Done in Other
Pinnell Plants.

The Pinnell-Tompkins Lumber company of this city is making improvements in preparation for the use of electricity as power that will cost approximately thirty-five hundred dollars. Practically all of the material for installation has arrived. The plant will be closed for two weeks while the wiring is being done.

Each machine will be equipped with an individual motor ranging from one of twenty-five horse power down to the smallest with five horse power. The combined horse power of the twenty-two motors will be one hundred and fifty two.

Steam power will be abandoned which will mean the discarding of the steam engine, belis and several yards of line shafting which is used at present in operating the machines. The boiler will still be used for heating purposes.

The electric wires will all be laid in conduits and all of the equipment will be the most modern. The Capp Plumbing & Electric company has the contract for installing the motors and doing the wiring.

The Pinnell-Tompkins company put in an individual motor on a saw about a year ago for the sake of convenience and it has given perfect satisfaction. The saw was placed in such a position that it could not be operated from the line shaft without great difficulty.

The company figures that the expenditure for the improvement will be economical management. Under the present system, enough power is being generated all the time to operate twenty-two machines, all there are in the mill. When the individual motors are installed, only the machine that is in use will be running. And since there are only four machine operators, eighteen machines will be idle all the time and that much saving in power will be realized.

The Pinnell-Tompkins company will be the third factory in Rushville to use electricity for power purposes. The Charles E. Francis company was the first concern in Rushville to adopt this system of the individual motor for each piece of machinery. The Charles E. Francis company uses current from the municipal electrical plant as the Pinnell-Tompkins company will be. The Rushville Furniture company was the second factory in Rushville to use electricity for power. This company generates its own current.

Similar improvements are being made in the ten lumber factories in Indiana in which Mr. Pinnellis interested. The concerns in which he has an interest are located at Shelbyville, Colfax, Lebanon, Noblesville, Danville, Jamestown, Advance, Fairland, Kokomo and Rushville, with central offices in Indianapolis.

KAISER DEPRESSED.

(By United Press.)

Paris, Feb. 12.—According to the Zurich correspondent of a Paris newspaper the kaiser is in a state of absolute depression and has told members of his suite that Germany must seek some way to conclude peace.

The ladies of the Big Flatrock church will hold an exchange Saturday at the Plough Millinery Store.

CONFERENCE TO BE HELD MONDAY

County Commissioners Will Meet
A. W. Butler, Secretary of State
Board of Charities

IT IS AT HIS REQUEST

Presumed by Board That he Wants
to Discuss Plan for New County
Asylum Building

The county commissioners will go to Indianapolis Monday for a conference with Amos Butler, secretary of the state board of charities. Mr. Butler has asked that the commissioners meet with him and while he has not given out the purpose of the meeting it was believed by the commissioners to be for the purpose of discussing plans for a new building at the county poor farm.

The meeting was to have been held today, but Mr. Butler sent word for the commissioners not to come as this was a holiday and he did not believe they could accomplish anything today. Mr. Butler while here a week ago personally inspected the building at the poor farm and while he could not comment on what kind of a report he would make, he did drop the remark that one of the buildings there was a disgrace to Rush county.

The commissioners and county officials would not be surprised if Butler condemned the building and ordered a new one erected. A new building will have to come sooner or later and the commissioners expect to be asked to look over plans of the state board of charities. The annual report of the state board of charities for the past ten years has been practically the same in regard to the buildings at the poor farm. Every report states that the buildings are poor and that the inmates cannot receive the attention they should because of this.

In all of the reports the superintendents have been praised while fault was always found with the buildings. The superintendents of the poor farm have always escaped criticism and the farm has been conducted in a business like manner, but the reports of the state board invariably take a knock at the buildings.

The commissioners expect Butler to make them some kind of a report and offer a solution to the difficulty. Other poor farms may be visited to get ideas on buildings.

EFFORT TO FORCE RULE

Ship Purchase Bill Advocates Fail in
Senate Coup.

(By United Press.)

Washington, Feb. 12.—With the aid of Vice-President Marshall's vote the ship bill advocates in the senate this afternoon laid the ship bill aside to take up a special rule providing for a vote February 19.

The vote was 47 to 47 so Marshall balloted with the Democrats. The Republicans and bolting Democrats were put in the position of voting against displacing the ship bill. The attempt to force through the rule requiring a separate ballot failed by one vote.

"NO COMPROMISE."

(By United Press.)

Washington, Feb. 12.—President Wilson stood pat today on "no compromise" in the ship bill fight. Reports that he would consent to modification were fiction; the white house intimated.

MAY MAKE IT PARTY BILL

Democratic Majority Has Option on
Suffrage Measure Until Tuesday.

(By United Press.)

Indianapolis, Ind., Feb. 12.—The Democratic majority in the assembly has been handed the partial suffrage bill and has an option on it until Tuesday. They will decide by that time whether to make it a party measure.

That statement came today from the Legislative council of Indiana women which is pushing the bill and explained the numerous delays in having it introduced.

FLAG PRESENTED TO HIGH SCHOOL

E. B. Thomas Makes Appropriate
Talk at Exercise Which Per-
formed Double Function Today

LINCOLN'S BIRTH RECALLED

The large American flag given to the high school by the J. B. Reeve estate was formally presented to the high school this morning with an appropriate address by E. B. Thomas. Mr. Thomas praised the late Captain Reeve highly. He recalled him a citizen quiet in his ways and one who was versed in the needs of the community. Mr. Thomas said the three years Capt. Reeve spent in the army to help preserve the nation proved his devotion to his country. He paid deep tribute to the flag, declaring that the high school pupils would learn to appreciate it as they grow older and as they learned that a life of service was the one that counted. The high school appreciated Mr. Thomas' talk immensely. The flag will be used inside the building for the high school.

There were no special programs commemorating Lincoln's Day in the grades today, but at the usual morning exercises the significance of the day was brought out by the teachers in some way. The schools here did not act on the suggestion of the state superintendent to take a collection for the war sufferers on Lincoln's birthday because the schools contributed to the local Belgian relief fund some time ago.

RUSSIANS FORCED ACROSS THE BORDER

Enemy Retires Across Prussian
Front to Prepared Bases.

Berlin Asserts Today

ENDROMOUS REINFORCEMENTS

(By United Press.)

Berlin, (By Wireless), Feb. 12.—With the kaiser again on the eastern battle front, fighting of the most severe character is proceeding along the Vistula and in the Carpathian region with results described by the general staff as eminently satisfactory.

The fighting along the eastern Prussian front, however, has resulted in the Russians being forced back across the border on to their prepared bases where they are now trying to return to the offensive. The Russians are bringing up enormous quantities of reinforcements and supplies and it is reported here that Duke Nicholas is personally in command.

DRUGGISTS BILL KILLED IN HOUSE

Measure to Impose Rigid Rules to
Prevent Sale of Liquor Defeat-
ed Over Protests.

STATE OFFICIALS SCORED

Resolution That They Abide by
Spirit of Anti-Lobby Law is
Passed in Upper Branch.

Indianapolis, Ind., Feb. 12.—Despite vigorous protests of Representative Habermell the house today killed his bill to impose rigid rules to prevent the sale of liquor by druggists. The vote of 51 to 34 overruled the majority report of the committee and adopted the minority report for indefinite postponement. Habermell asked calmly that his bill be passed to third reading and be given a chance for discussion.

"The reputable druggists are for this bill. I have hundreds of letters from them," he said. "He pointed to the fine looking gentleman from Hamilton county who appeared before the committee and who was a druggist himself. He read a letter from a young man who purported to be acquainted with the fact and stated that the druggists violated all the laws of man and common decency."

Representative Haggerty pleaded for the old remedies which he said could not be had if this bill were passed. He named rock and rye.

State officials, who today were scored in the senate today, Democratic Floor Leader VanNoy said the only reason they were not included in the anti-lobby act was that it would have been unconstitutional.

Senator Ballou led the attack by criticizing A. E. Humphreys, insurance tax investigators, for opposing the Ballou bill to give counties the proceeds of the inheritance tax. Ballou introduced a resolution that it was the sense of the legislature that state officials abide by the spirit of the anti-lobby law.

When Senator VanNoy moved to postpone, VanNoy's urged that the resolution be passed at once and it was passed.

"The state officials are taking too much of our time," said VanNoy.

Senator Thornton declared a man connected with the state insurance department was lobbying in the interest of the insurance companies.

LECTURE TONIGHT.

Mrs. Demarchus C. Brown of Indianapolis will lecture on "Sola, the Friend of the Oppressed," at the Graham school building assembly room tonight at 7:30 o'clock. A large crowd is expected.

William Curry and Frank Curry have filed suit to enforce the payment of a note against Warren W. Robbins, Henry Robbins and the Capital State bank.

Inquiries or Customers?

Some manufacturers compute the value of their advertising value by actual customers and actual sales.

That is why the retailer invariably favors newspaper advertising. It sends customers to his store and sells the goods.

When it is the manufacturer advertising in the local newspaper that is sending those customers that retailer is naturally favorable to that manufacturer and his goods. He shows the goods and sells them.

PUBLIC SALE

The undersigned will sell at Public Sale on the old Joe Gosnell farm in Washington township, 2 miles northwest of Raleigh, on

Tuesday, February 16, '15

2500 Bushels of Good Yellow Corn

TERMS OF SALE—2 cents off each dollar for cash or until April 20, 1915 without interest, purchaser to give bankable note with approved security.

FORTUNES MADE AND LOST IN PIT

Wheat Market History a Story of Joy and Sorrow With Innocent Consumer Paying Freight

DEMAND AND SPECULATION

Last Corner Was Engineered by James Patton in 1910 and Netted Him Millions.

(By United Press.)
Chicago, Ill., Feb. 12.—The romance and tragedy of the people's breadstuff in the last 50 years is a story of fortunes made and lost; of speculation and suicide with the innocent consumer always paying the freight. Some times the grower benefitted some times not.

The rapid and sensational advance in wheat prices which has followed the war recalled to Chicago traders other wheat marks in years gone by. During the civil war, wheat at one time sold for \$2.35 in the Chicago grain market, while on the seaboard it could not be purchased cheaper than \$3 gold. The prices forced by the war lasted until 1897. From that time to 1883, wheat sold above \$1 every year. In the last 20 years, wheat brought above \$1 in 11 years—not continuously, but at times.

In 1872, the Franco-Prussian war, either by demand or speculation, forced wheat to \$1.61. Three years prior to that, Sept. wheat was cornered. No one now in the Chicago trade remembers just who did it, but records show that this corner sent wheat to \$2.47 per bushel.

The most noted corners of the last 30 years were those engineered by E. J. Harper, B. F. Hutchinson, "Joe" Leiter and James A. Patton.

Harper's corner in 1887 took wheat to \$1.16, when the corner collapsed and sent banks and speculators tottering. "Old Hutch," now dead, one of the most spectacular of the old time traders, engineered his corner in 1888. It sent wheat to \$2 a bushel. There was no serious attempt after that to corner wheat until 1898, when "Joe" Leiter tried. He put May up to \$1.85, made millions, and then tried to switch his corner to June and thereby lost a sum that he himself testified a few weeks ago totaled \$11,000,000. His father's estate, that of Levi Leiter, merchant prince, came to his aid and in later years Leiter recouped all his losses—but not in the grain pit.

The latest corner in 1909 was engineered by James A. Patton, Chicago trader, and Patton is believed to have cleared millions, how many not even his brokers ever knew. The record price in his coup was \$1.60. For two months after he closed his corner, cash wheat sold higher than the futures.

Patton ostensibly retired a few years ago and lives in a palace at Evanston, Ill. His gifts to colleges, hospitals and private charities total millions. The magnificent gymnasium at Northwestern University, Methodist institution at Evanston, was Patton's gift and bears his name.

Genuine Prescription For All Rheumatism

One That Does Cure or Money Back, Johnson's Drug Store

Rheuma—(that is the name of the scientific prescription that is putting old rheumatism out of business.

Rheuma cures by driving the uric acid from the blood. It also acts directly on the kidneys and is better for them than most so-called kidney cures.

Porter Smith, Dobbin, W. Va., writes: "I have been a great sufferer from rheumatism for about 26 years. The disease had become chronic. I began taking Rheuma with little faith in its virtues, but was better from the first day I began its use, and at this time have no more pains."

Johnson's Drug Store and all druggists sell Rheuma, and no rheumatic sufferer can afford not to use it. 50 cents a bottle. Your money back if not satisfied. (Advertisement.)

ALL THE MARKET QUOTATIONS SAME

No Prices Quoted on Grain But All

Stock Prices Are the Same as

They Were Yesterday.

IT IS LINCOLN'S BIRTHDAY

(By United Press.)
Indianapolis, Ind., Feb. 12.—This being a legal holiday, no prices were quoted on grains. There was some live stock received, however, but the prices remained the same as yesterday.

Local Markets.

C. G. Clark & Sons are quoting the following prices on grain today, February 12, 1915.

Wheat	\$1.50
Corn No. 4 Yellow	72c
Corn, No. 4 White	74c
Oats	.55
Rye	1.00
Timothy hay	\$16.00
Clover hay	14.00
Oats or wheat straw	6.00

While Patton is "officially" retired, he maintains an office and is usually there when there is a "hen on" in the grain pit and frequently takes a "flyer" so he calls it, involving a mere matter of a few hundred of thousands. Patton's friends say that all his winnings in the wheat pit now go to charity.

The ladies of the Presbyterian church will give a buffet supper and a box social, in the basement of the church, next Wednesday evening. Supper served from 5 to 7. Public invited.

—Donald Meyer has gone to Connersville for a several days' visit and to attend the K. of C. indoor fair.

—Mrs. Margaret Dinkens of Fayette county was in this city this morning, enroute for a visit with friends in Anderson.

—Mrs. Otis Herron returned to her home this morning in Indianapolis, after a visit with Mr. and Mrs. Adolphus Cameron, in Milroy.

—Mrs. Joseph Clemons returned this morning to her home in Williamstown, after attending a funeral of a relative in New Palestine.

—Miss Lola Casey returned to her home this morning in Spiceland, after spending a few days with friends and relatives in this city.

—Miss Anna Gessler and Albert Sweet and Miss Ethel Oakley and Carl Wright attended the K. of C. indoor fair at Connersville last night.

—Mrs. Earl Winship and Mrs. Lew Oneal were among the passengers this morning to Indianapolis, and saw the Follies this afternoon, at the English Opera House.

Society News

The Princess Art Club of Falmouth was entertained yesterday by Miss Bessie Knotts. It was the anniversary meeting of the club and the following officers were elected: Miss Mariam Fry, president; Miss Ada McConnell, vice-president; Miss Freda Fisher, secretary, and Miss Sylvia Nelson, treasurer.

Mr. and Mrs. Edward Jackson, of Raleigh entertained the faculty of the Raleigh schools last evening at a six o'clock dinner and valentine party. The following were present: The Misses Gladys Aurelius, Zelda Mays, Una Greenwood, Gladys Walker and Prof. Taylor, Clifford Mitchell, and Mrs. O. W. Sox, and daughter.

The K. of P. dance last night was a most delightful affair. The dancers were entertained by the Princess dance trio and cabaret singers with what was conceded as the best dance music played in this city this season. The boys are to be congratulated in playing the latest up-to-the-minute hits and putting them into perfect dance time. The cabaret feature of the entertainers was highly complimented by the dancers. This same organization of local boys has been retained for the next K. of P. dance on Thursday, February 25.

Husbands of the women who are members of the Milroy Research club entertained their wives at the Milroy school auditorium last night with a musical program furnished by the Misses Martha Hogsett, Francis Frazee, Norma Smith and Louise Craigie of this city. Miss Craigie was the accompanist and Miss Hogsett and Miss Smith sang duets, solos and played piano solos. Miss Francis Frazee presented a number of readings, some in costume, which were immensely appreciated by the audience. Miss Smith and Miss Frazee gave some readings together. The whole program was the subject of much favorable comment and was very popular with the Milroy audience.

The friends of Jacob Weber, 523 West Fifth street, carried out a well planned surprise on him last evening remembering his thirty-fifth birthday anniversary. The guests were: Mr. and Mrs. Alva Newhouse, Mr. and Mrs. Henry Schrader, Mr. and Mrs. Harry Allen, Mr. and Mrs. Will Jones, Mr. and Mrs. Percy Wright, Mr. and Mrs. Ernest Carpenter and son Clarence, Mr. and Mrs. Marsh Pyatt, Mr. and Mrs. Frank Melwane and family, Mr. and Mrs. Louis Suddler and son Robert, Miss Cornelia Schriber, Mr. and Mrs. Herbert Gregory and daughter Mildred, Miss Nora Cochran and Claude Owens. He was presented with a beautiful rocking chair. A two course supper was served and the evening was spent with Rook and in guessing contests.

County News

Herman Snelser of Indianapolis and Glen Snelser of Muncie spent Saturday and Sunday with their parents, Mr. and Mrs. John Snelser.

Miss Minnie Gibbs of Indianapolis and Mrs. Vincent Gibbs of Connersville, who was visiting Miss Dollie Lewis, returned home last Saturday.

The Rev. A. F. Powers of Fairview filled his regular appointments Sunday morning and evening.

Mrs. P. A. Hobbs went to Lewisville, Ky., Monday to be at the bedside of her mother who is very sick.

John Dickey attended a hog sale near Centerville Monday and purchased a fine brood sow.

John Higley transacted business at Indianapolis one day last week.

Mr. and Mrs. John Hackleman called on old friends in Fairview Tuesday.

Rev. A. F. Powers will preach at the Fairview Christian church next Sunday morning and evening.

Mrs. James Smith was the guest of Mr. and Mrs. Miles Daubenspeck Wednesday.

Mrs. Frank Huddleson and daughter Mary were the guests of her parents, Mr. and Mrs. Wm. Higley, Wednesday.

Adam Hubert moved his household goods from the Josh Fry farm Wednesday to the property that he purchased of Roy Rich in Fairview.

Mrs. Aaron Kennedy spent Wednesday with her mother Mrs. Will Hall.

The Rev. I. N. Grisso spent Sunday with Walter Carson and family.

Mr. and Mrs. Lloyd Nelson moved to Milroy Monday. Loyds sister, Mrs. Minor Bell, spent Monday and Tuesday with them.

Several of Miss Lois Miller's friends visited her Wednesday evening.

Miss Myla Gordon returned to her home Monday from the Sexton sanatorium where she underwent an operation for appendicitis. She is getting along fine.

Mr. and Mrs. Will McMillin visited in Madison Wednesday and Thursday.

Miss Stella Carson sang a solo Sunday morning at church.

John A. Gordon purchased a touring car of Ben F. Jones this week.

The Ladies Aid Society met Thursday evening with Mrs. Eva Leonard.

Mrs. Nancy Whitton is better at this writing.

Charlie Eskew spent Sunday with Marvin Brown.

Mrs. Chloe Hays entertained the C. W. B. M. at her home Wednesday evening.

Mrs. James Smith and Miss Lillie Smith visited in Indianapolis a few days last week.

Mrs. Homer Hall spent Monday evening with John Gordon and family.

Alphonso Nelson visited in Madison Wednesday and Thursday.

Misses Ruth Laughlin and Gladys Cole and Messrs Gifford Cook and Lowell Vickrey spent Sunday evening with Miss Sallie Logan.

Mrs. Rice Bishop, who underwent an operation last Saturday at the Sexton sanatorium, is recovering rapidly and will soon be able to be taken to her home, northeast of the city.

The Rev. Mr. Powers will preach at the Falmouth Methodist church Saturday night.

Frank Boots has filed suit on a note against Warren W. Robbins, demanding \$250.

Amusements

The Princess will show a three reel Vitagraph comedy "Love, Luck and Gasoline" for the program tonight. It is said to be one of the best comedies ever produced and features those three stars, John Bunny, Lillian Walker and Wallie Van. A fast ocean going yacht, a motor boat a hydro-aeroplane and an automobile are used by the lovers to escape her parents. It is said to be a scream from start to finish. On Monday matinee and night the William A. Brady feature in four acts, "Mother" will be shown. The play of the same name is by Jules Eckert Goodman and Miss Emma Dunn is retained in the role of "Mother" the part she created in the stage production.

The Mystic will show a two reel Biograph feature "The Closing Web" for the first picture tonight. Allan Hale and Louise Vale are featured and it is said to be a dramatic picture telling a vivid story of society and one that will interest from beginning to end. The other is the eleventh of the series of Arthur Johnson pictures of "The Beloved Adventurer" series, entitled "The Serpent Comes to Eden." Tomorrow

TOMORROW
DOROTHY KELLY and JAMES MORRISON in

"Saved From a Life of Crime"
A Two Act Drama

GOOD NEWS

Many Rushville Readers Have Heard it and Profited Thereby.

"Good news travels fast," and the bad back sufferers in Rushville are glad to learn where relief may be found. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with this tested remedy. Here is an example worth reading.

Samuel A. Brown, R. R. No. 10, Rushville, says: "I had a severe attack of backache and it got worse every day. Finally, the trouble got so bad that I could hardly raise my foot above the ground. When I stooped, I thought my back would break. Someone advised me to try Doan's Kidney Pills and I got a box. I was very much surprised at the prompt way in which they stopped the trouble. In a few days I was free from pain."

Price 50, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brown had. Foster-Milburn Co., Props., Buffalo, N. Y.

One Thing Lacking.

The Milroy Press says that it would like to see ten progressive farmers in each township in Rush county have a banner "acre tract" of corn apiece this year. The Press further states Rush county has the dirt and the climate and wonder if she has the capable farmers? There seems to be little doubt but that she has the farmers, too. She has all the necessary requisites to make banner corn acreage or a banner crop of anything else adapted to the county, except the one thing that would blend all of the mixed interests of Rush county farmers into some concrete achievements. That one thing missing is the county agent.

As sure as Rush county fails to take hold of this method for advancement, she is going to lag behind. Our forefathers in Rush county have handed down to us a rich legacy which we are supposed to preserve. We can't do it without applying twentieth century ideas. We can't continue to work with the implements, so to speak, of those who went before us. Although the general principles change little, their application is continually changing and Rush county farmers must keep astride with the times.

All this blare of trumpets about passing a law in Indiana for the relief of the unemployed is a waste of energy. Why not get at the seat of trouble? Why not ask the federal government to pass a protective tariff law so as to give the unemployed back their jobs?

But even at that, Mr. Taggart is probably not nearly so infamous for distracting direct primaries as a panacea as he would have been if he had joined in with base demagogues who are trying to foist this reprehensible innovation upon our noble representative form of government. —Indianapolis Star.

Wouldn't Albert Jeremiah shudder if he should happen to read that?

It has been revealed that the whip of the state Democratic machine is being cracked with vigor in the state senate, the upper branch of that Indiana body which all proclaimed would be a model of efficiency and perfect decorum after the "lesson" of 1913. One Democratic member felt the sting of the lash and "talked out" in school. He said that he was to be disciplined for voting against Mayor Bell's finance board bill. Sounds natural. Just like old Mr. Machine manipulates things.

What Our Neighbors Are Talking About

They Still Say It
(Muncie Press)

Honestly, there are still a few Rip Van Winkles left in the country who talk about the tariff on a commodity being added to the price!

This, of course is to say that when the tariff on an article is removed or reduced, then the price falls by the amount of the reduction.

Why, then, has the retail price NOT been reduced on ANY of the hundreds of articles affected by tariff reduction under the Underwood law? Why did such prices NOT fall during the first nine months operation of the revision downward, before the European war began?

You remember the agonizing outcry we used to hear about the tariff on sugar being a tax on the poor man's breakfast table. The tariff has been substantially reduced on sugar. The reduction went into effect on January 1, 1914. The wholesale price of sugar was actually higher during the next seven months than at the time the reduction went into effect. The refiners, the sugar trust got cheaper raw sugar, it is true, from the importers than they had been able to buy from domestic

New York's Oldest Commuter Makes Same Trip For 68 Years

BY CALTON TEN EYCK.
(Written for United Press.)

New York, Feb. 12.—Small city residents who sometimes curse their street car service and wished they "lived closer to their work" have no kick coming when the Main street line cars fail to show up at the transfer corner. And in the towns where there are no street cars at all and the man who works downtown thinks fifteen blocks a long walk, the mile-from work "commuter" should hold back his troubles and think himself lucky.

At least, that's the way William Howland Hussey, New York's oldest commuter, would put it, for Hussey, who was 91 years old the other day, has traveled from 150 West 35th street to his home in East Orange, N. J., and back again downtown in the morning, nearly every day for the past sixty-eight years.

Last week Mr. Hussey became ill and, for the first time in many months, missed his daily journey over the Lackawanna and the ferry to his place of business. He has printed himself on being down to work early every morning, and his enforced absence from the office where he conducts a plumbers' supply business, has worried him considerably, say his associates.

During all the time that he has "commuted" Hussey has been in only one accident. Twenty years ago the train in which he was riding was derailed and almost ran into the Hackensack river. Outside of that, ever since 1857, when he began to make the trips from South Orange to New York, Hussey has traveled in safety.

New Yorkers refuse to get excited or trembled at night despite the dire predictions of Hudson Maxim, who delivered an address the other night before the Twilight club and calmly informed his auditors that a foreign army could conquer New York, Philadelphia, Boston, Washington and all the territory within a radius of 160 miles of Peekskill, New York, in a few days.

Maxim drew a lurid picture of the fate of "fair womanhood" at the hands of an invader. "The entire country east of the Alleghenies probably will be Belgimized with fire and sword, depredated, degraded and desolated by an invading army within a short time after the European war is over," he said.

Maxim wants the army and navy to utilize the latest war-making inventions and prepare for a big war.

But the navy yard and coast artillery posts are not worrying.

A club with the motto "Learn, Eat, Talk" and to which no rich woman or "kind ladies" are to be admitted will open next week in the Murray Hill district. The club is for business women only. Miss Theodore George, of the Women's Municipal league, who is interested in the club, said business women had learned it was impossible for them to mingle happily with women of leisure, and they wanted a club all of their own.

Little Girls: Take warning. Because she was a good little girl and always sat quiet in the stern sheets when she went fishing with Jacob Hyman, a former Broadway jeweler, Miss Bertha Gretsch, now 23 years old, inherits one half of his estate, amounting to \$50,000. Hyman lived with the Gretsch family when Bertha was a little girl, and he had one hobby, fishing. Bertha was the only child who sat still in the boat and didn't bother the fish.

The Mormon cause profited in Brooklyn last week. Instead of the gray-bearded elders, the Utah church sent two fair daughters to fascinate probable converts, Miss Gertrude Phelps and Miss Edna Crowther, county princesses of the Salt Desert, are to spend eighteen months in New York missionary work.

STRATEGIC MOVE IS IN THE OFFING

Russians Will Withhold Details of Operations Pending One Which Will Solve Struggle.

GERMANS ARE DESPERATE

(By United Press.)

Petrograd, Feb. 12.—The war office today in explaining that certain of the Russian forces have been withdrawn from their advanced positions in east Prussia pointed out that it will be necessary for the next few days to withhold all details of operations in this section.

The reason given was that "we are upon the eve of a great operation which must solve definitely the struggle now in progress there." Just what is planned is a closely guarded secret.

The Germans continue their desperate efforts to gain a foothold in the various Carpathian passes but so far without success.

Hears the Echo
(Connersville News)

It is curious how men's minds run in the same channel at times. The Examiner remarks that "Jim" Watson says "the colossal blunders of Wilson spells success for Republicans. Whether he is right or wrong the substance of Mr. Watson's words are being echoed daily right in this city and more especially among men who work in the factories and shops and a large number who talk that way supported Mr. Wilson in 1912. And they are not in any way secretive about it either."

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

WHO WON THE \$1,000 AND WHY?

In spite of the poorest corn year ever known, many farmers finished in our contest for the ten prizes of \$100 each for the best ten full-acre yields of shelled corn.

Grown on Bowker's Fertilizers

in Ohio and Indiana; and the ten prize winners secured yields averaging 96.74 bushels shelled corn per acre. The average yield of these two states according to Government Bulletin 641, is 36 bushels, while the United States average yield is 25.8 bushels. In other words, by using good seed, good cultivation, good sense and good fertilizers

These men nearly trebled their state yield and nearly quadrupled the United States yield.

Good work! and good agriculture! Their names:

First	\$100	R. E. McAhren, Maumilla, Ind.	yield 115. bu.
Second	\$100	P. P. Pope, Tontogany, Ohio	yield 108. bu.
Third	\$100	O. L. Hart, Greenville, Ohio	yield 104.5 bu.
Fourth	\$100	W. A. Groshams, Hamlet, Ind.	yield 103.5 bu.
Fifth	\$100	Norris McHenry, Elizabeth, Ind.	yield 93. bu.
Sixth	\$100	W. A. Withrow, New Richmond, Ind.	yield 91.7 bu.
Seventh	\$100	Calvin Collier, Bellevue, Ohio	yield 91.5 bu.
Eighth	\$100	W. A. Westfall, Poseyville, Ind.	yield 89.9 bu.
Ninth	\$100	Valentine Bender, Poseyville, Ind.	yield 87.1 bu.
Tenth	\$100	Wm. Frederick, Corydon, Ind.	yield 82.5 bu.

ARE YOU STRONG ENOUGH TO WORK?

Mrs. Hubbard Tells How Vinol the Famous Cod Liver and Iron Tonic Built Her up and Made Her Strong.

Covington, Ky.—"I was in a general run-down condition and suffered from a bad cough. I have a family of four, and after working for a while around the house I would get so tired I would have to sit down and rest, and sometimes it seemed as though my back would break."

"I tried cod liver oil emulsions and other remedies but did not seem to get any help. Finally one day I saw Vinol advertised and tried it. I soon noticed a decided improvement, and now it has built up my health and strength."—Mrs. ALEX. HUBBARD, Covington, Ky.

Vinol is a constitutional remedy for all weak, nervous and run-down conditions of men, women and children.

In a natural manner this delicious cod liver and iron tonic creates a hearty appetite, aids digestion, makes pure, healthy blood and thus creates strength for the run-down and debilitated. We have never sold in our store a more dependable remedy for coughs, colds and bronchitis than Vinol.

Try a bottle, and if it doesn't help you we will return your money.

F. B. Johnson & Co., Druggists, Rushville, Ind., and at leading drug stores everywhere.

\$100 Reward, \$100

Readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical profession. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Prepared by J. C. HARTLEY & CO., Toledo, O.

GILMORE LAYS DOWN THE RULES

President of Feds Says More Attention Will be Paid to Discipline This Year

WORM BEGINNING TO TURN

On Account of Other Things he Was Too Busy to Look After the Playing End

BY HAL SHERIDAN
(Written for United Press.)

New York, Feb. 12.—Already the worm is beginning to turn. The halcyon days when a ball player bought two or three automobiles, put on parties for that one in the third row back and showed up at the park the next day ready to fight his grandmother are just about gone. To the popular tune of Jim Gilmore's funeral dirge they will be borne out by saddened ball players.

They were dying in the big league two years ago. Then came the Feds and with the siren clink of many dollars lured the slaying tollers from their first loves, promising much gold. The players got the gold and the headaches.

But, as heretofore chronicled, the ancient worm has done the Vernon Castle. The announcement comes from no less a personage than James A. Gilmore himself, who, when he isn't calling Dan Johnson names, presides the Federal league. List to Jones!

"On account of the many other things that had to be attended to last season we had little time to look after the playing end, (Kansas City and St. Louis players please copy) of the game and enforce discipline. But we know some of our players failed to display the same activities they did while members of organized ball and also we know that some of them didn't keep in such condition as to give their best services to the club.

"The Federal league has been a great benefit to the ball players, and hope they will realize it. We have given them a chance to draw bigger salaries than ever before. And, besides, we have been the cause of their getting better treatment from Organized Ball.

"I don't say any of our players 'laid down' in their playing, but they lacked the aggressiveness they showed with Organized Ball and we hope to remedy this next season.

"We are going to have discipline!" And this from a man who but a few months ago proclaimed to the wide, wide world that a ball player was a slave and subjected to unjust persecutions on the part of his employers and that in the Federal league the poor ball player would find a haven of rest and free content!

* * * * *

A FLOCK OF BUGGIES.

A horse could hardly be blamed for frightening at a "flock of buggies" such as soared down on Beale Brothers Plumbing company's delivery horse as it stood hitched in front of the company's building 100-108 North Perkins street yesterday afternoon. The buggies were stationed across the street, backed up against the curb with the shafts up in the air. A strong gust of wind suddenly struck them. They all moved in a body across the street at a good pace. One struck the Beale horse in the flank and just as the animal started to lunge forward, another buggy passed right "under the horse's nose."

Truly, the poor horse was "in a box." Soon some men came to its rescue, succeeded in quieting it and moved the buggies away.

BILL IMPORTANT FOR TEACHERS

Measure Introduced Today Will be Hailed With Delight by Those Who Plan to Enter.

ARE MANY NEW PROVISIONS

Prospective Teacher Would Have to Take Examination Again Only on Subject Failed on.

(By United Press.)

Indianapolis, Feb. 12.—Senator Edward P. Elsner (Dem.) of Seymour today introduced a bill which he said was important for the teachers of the state. It has, he said, the approval of Charles A. Greathouse, state superintendent of public instruction. The details of the bill are many. It concerns teachers' licenses and success, grades and takes up in details the matter of examinations and qualifications.

All applicants for licenses in elemental school subjects may choose under the bill whether they will have their papers graded by the county or state superintendent. Before any applicant is examined he must submit to the county superintendent a certificate of good moral character from a school trustee of the county then in office.

Applicants for licenses in high school subjects would in all cases send their papers to the state superintendent for grading.

The bill would lessen the expense for applicants. Under the present law they must pay \$1 as a fee to cover expenses of the examination. The fee under the bill is fixed at 75 cents, which, according to Mr. Greathouse, is sufficient to pay all expenses.

One provision that will be hailed with pleasure by prospective teachers is that allowing them in case of failure in only one subject to take again the examination on that one subject at the next regular examination of the current year. At present, if an applicant fails in one subject, he must take again the examinations for all the subjects.

"The general average of the branches shall indicate the applicant's standing, which shall be the basis of issuing a license," the bill states, "which shall be the basis of issuing a license to a teacher without experience. The general average of the branches and the percent placed upon the applicant's school room success shall each count one-half in determining the average of a teacher who is entitled to a success grade."

RUSHVILLE TEAM PLAYS AT MADISON

Hard Game Expected as That Team is Out For Revenge For Defeat Handed When Here.

LOCALS EXPECT TO REPEAT

The Rushville high school basketball team left this afternoon for Madison where the team plays a return game with Madison tonight. The Madison team put up a fast game here some weeks ago and was defeated 37 to 19. The score was close throughout and Rushville pulled away in the last moments of play. The team has been practicing every night this week in preparation for the game and Coach Burns hopes to again humble the Madison boys.

The team has not had very great success away from home and the strange floor at Madison may prove a big handicap. Madison had been going good until they ran up against the locals and that team will be out for revenge tonight. Interest here outside of the Rushville—Madison game centered on the Shelbyville—Connersville game at Shelbyville. Shelbyville is expected by a majority of the fans to win by a large score.

\$3000.00 FIRE PREVENTED

Read This Letter:
"Several years ago I called on Lane & Evans to buy a pump and they almost forced me to buy one of your Fig. 28 Red Jacket Double-Acting Force Pumps and fifty feet of hose when I only intended to buy a cheap set length pump. Mr. Lane put up such strong argument on 'fire protection' that I followed his advice and bought the Fig. 28, little thinking that it would be of any service to me in that respect. Shortly after the pump was installed, my barn caught fire and had it not been for this pump and hose and the thoughtfulness of Mrs. Barnett, my barn, house and all buildings on the place would have been destroyed."

No Civilized Man Wants to Live Where
There Are No Churches—Go to Church!

GO TO CHURCH!
The church is the best institution the world has ever known from every standpoint—moral, economic and political. It has changed the world from HEATHENISM TO CIVILIZATION, from SLAVERY TO FREEDOM, from MIGHT TO RIGHT, from DARKNESS TO LIGHT, from MISERY TO HAPPINESS. Compare the conditions prevailing in heathen lands with those of Christian countries; the forms of government in the dark ages to those of the Christian lands today.

CAN ANY ONE BELIEVING IN GOD GIVE ANY REASON FOR NOT GOING TO CHURCH? THE CHURCH STANDS FOR THE PURITY AND SANCTITY OF THE HOME, THE PURITY AND RECTITUDE OF PERSONAL LIFE, THE HIGHEST MORALS, THE BEST LAWS. IT STANDS FOR JUSTICE, RIGHTEOUSNESS AND GOOD GOVERNMENT. IT IS THE GREAT INSTIGATOR AND PATRON OF ALL TRUE BENEVOLENCE. SKEPTICISM NEVER FOUNDED AN ASYLUM. THE CHURCH, NOT INFIDELITY, HAS FOUNDED THE GREAT ELEMOSYNARY INSTITUTIONS OF THE LAND.

The value of the church cannot be estimated. No civilized man wants to live where there is no church. He wants it for its influence, if for nothing else. Take the church out of any town or city and the citizen will take himself out. Take the church out and all evil will prevail, and from an economic standpoint property becomes worthless.

THE MISSION OF THE CHURCH IS TO SAVE THE WORLD. DOES IT MERIT ANYTHING AT THE HANDS OF ITS PRO-FESSED FOLLOWERS? IF SO, LET US STAND BY IT AND AT-TEND ITS SERVICES. IT IS A DUTY AS WELL AS A PLEAS-URE. INDIVIDUAL RESPONSIBILITY WILL NOT DOWN. LET US ASSUME IT CHEERFULLY AND RESPOND VALIANTLY.

Be sure to GO TO CHURCH next Sunday!
GO EVERY SUNDAY!

Services In The Churches Sunday

+Regular services at St. Mary's Catholic church, conducted by the Rev. M. W. Lyons. Masses at 8:00 and 10:00 a. m. Vespers at 3:00 p. m.

+There will be preaching every Sunday at the Glenwood M. E. church. Morning service at 10:30 o'clock, evening services at 7 o'clock and Sunday school at 9:30 o'clock.

+The "Curse Upon Merod" will be the subject of the sermon by the Rev. A. W. Jamieson at the United Presbyterian church Sunday morning. The evening subject will be on the topic, "Christianity and Education." Other services will be as usual.

+The Rev. C. M. Yocum will preach at the Main Street Christian church Sunday night on the subject, "The Arch of Triumph." The usual preaching services will be held in the morning at ten-thirty o'clock, with Sunday school at nine-fifteen o'clock.

The Gleaner class of St. Paul's M. E. Sunday school will meet Saturday afternoon at two-thirty o'clock with Miss Sadie Williams at 425 North Perkins street.

+The Rev. D. Ira Lambert, pastor of the First Presbyterian church, will conduct the usual services at this church Sunday. At the morning service he will preach on the subject "The Church—the Body of Christ." The subject of the evening sermon is "God's Valentine to a Lost World." All other services at the usual hours.

+St. Paul's Methodist Episcopal Church, A. D. Batchelor, pastor. Sunday school, 9:15 a. m., Leonard Clark, superintendent. The pastor will preach at 10:30 a. m. on the subject, "Caring For Souls." At night special Lincoln services will be held. Miss Frances France will recite and the pastor will make a short talk. Special music will be provided. An offering will be taken for the Jubilee Fund of the Freed-men's Aid Society. At 2 p. m. in the lecture room of the church a meeting of the men of the church will be held. The meeting is called to organize for the personal evangelistic canvass. The meeting is important. All men who are members of the congregation are urged to be present. Tuesday 2:30 p. m. the Ladies Aid Society will meet with Mrs. R. C. Hargrove, 120 West Seventh street assistants to the hostesses, Mrs. S. L. Innis and Mrs. Winnie Dill. Thursday, 2:30 p. m. the Woman's Home Missionary Society will meet with Mrs. A. T. Mahin, 404 North Harrison street. Mrs. Samuel Innis, leader. Thursday, 7:30 p. m. mid-week meeting for Bible study and prayer.

+Christian Science services every Sunday morning at 10:45 and every Wednesday evening at 7:45 at 405 North Harrison, northwest corner of Fourth street.

+The usual services will be held Sunday at the First Baptist church. The pastor, the Rev. S. C. Huntington will preach both morning and evening. The subject of the morning sermon is "Great Men" and in the evening he will speak on "The Unclean Thing."

MRS. WILLIAMS' LONG SICKNESS

Yields To Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

SENDS PROTESTS TO THE GERMANS

State Department Objects to Interference With Official Communications to Luxemburg.

U. S. MINISTER SPEAKS OUT

Henry Van Dyke Demands an Apology and Says That Germany Must Offer Explanation

(By United Press.)
Washington, Feb. 12.—The state department today protested to the German government against interference with Minister VanDyke's communication between Holland and Luxemburg.

It did not appear that Van Dyke's mail was tampered with; it was simply turned back. A subordinate's overzeal was blamed but it was felt the incident deserved notice.

A dispatch from The Hague, where Henry VanDyke, United States minister to The Hague and the Grand Duchy of Luxemburg, is stationed, said this morning that Minister VanDyke had appealed to the state department at Washington to protest against German interference with his duties as minister to Luxemburg.

He said his diplomatic communications with Luxemburg have been cut off by the German military commander at Trier (Treves), who had refused to permit his letters to pass because they were sealed with the seal of the American legation.

Dr. VanDyke has been trying for four days, through the friendly medium of the German minister at The Hague, to obtain an explanation from Berlin of what he considers an invasion of his diplomatic privileges, but no answer has come from the German capital.

"That statement of facts is correct," said Dr. VanDyke. "The action of the German commander at Trier may have been a mistake of ignorance, but it must be explained and apologized for."

"Luxemburg is a very small country of 250,000 inhabitants, but the peaceful duties with which the American government has charged me toward that country are just as sacred as if it were a hundred times as big."

"It was the first of the neutral countries to be invaded and appears to be threatened with a failure of the food supply."

"I cannot consent to interference with my duties toward Luxemburg by any power in the world except that which conferred them upon me, namely the government at Washington."

PORTLAND CLEANS UP FOR COMPANY

City Gets Ready in Anticipation of Thousands of Visitors Going to Expositions

PROCLAMATION BY MAYOR

(By United Press.)
Portland, Ore., Feb. 12.—Today was "clean up" day in Portland in anticipation of thousands of visitors going to and from the California expositions.

Workingmen, business men, housewives and thirty thousand school children joined in making Portland a "spotless town."

War was waged on untidy lots and buildings, and grounds were put in the most attractive condition.

Pay Telephone Toll

Don't overlook to pay your telephone toll before Feb. 12 if you wish to avoid paying 15 cents extra for collection. No notice will be given by telephone. M. V. SPIVEY, Secretary. 27811

RAISE MONEY FOR MONUMENT

Popular Subscription Under Way as Tribute to Red Cross Nurse Who Lost Her Life

DIED FROM BLOOD POISONING

Twenty-five Anniversary of Literary Career of A. L. Kuppin Spent in Trenches

(By United Press.)
Petrograd, Jan. 25. (By Mail to New York).—A popular subscription is being raised in Odessa for a suitable monument to the remarkable heroism of Mile, Ludomila Alexinsky, of the Red Cross.

In the battle of Gumbinnen in August, while helping to carry a wounded man out of the line of fire, she was hit by a bullet in the hand. Immediately after her recovery she was transferred to the army in Galicia where she was present in three battles, during one of which she was under fire for 17 hours.

On another occasion a doctor whom she was assisting was killed by a shell, his body being blown against Mile, Alexinsky with such force that she was stunned. After a brief rest she again returned to the front and helped to succor the numerous German wounded left behind at Ragow.

Later she went to South Poland, and at the storming of Petrokov she was again wounded, this time in the shoulder. Blood-poisoning ensued and she died in great agony.

Mile, Alexinsky was the seven-month Russian Red Cross nurse either killed in battle or died of wounds.

The twenty-fifth anniversary of his literary career was spent by A. L. Kuppin, one of Russia's most popular authors, in the trenches along the Vistula. It was while a pupil of the Moscow Military School that Kuppin began his activities as a short-hand writer. His first attempt nearly resulted in his expulsion from the school, the director finally consented to his continuing his studies only on condition that he relinquish the idea of becoming an author. "It is much harder to be an efficient officer than a mere writer," observed the director.

Kuppin was graduated with the rank of lieutenant, but resigned shortly afterwards. He enlisted in the army again on the outbreak of hostilities with Germany.

TO REMOVE EVERY SIGN OF DANDRUFF

If your hair is not pretty; if it is losing color, too dry, full of dandruff falling out, or if your scalp itches, you can quickly overcome all of these conditions at a trifling cost with this simple home treatment.

Just get from Johnson's Drug Store some Parisian Sage, a most helpful invigorating tonic that supplies every hair need. It is easily applied and absolutely harmless. Improvement begins with the first application for Parisian Sage not only nourishes the hair roots but stimulates your hair to grow long, thick, soft and fluffy, and lustrous. It immediately removes every bit of dandruff; stops itching scalp and surely gives your hair new life and beauty.

TILLAGE WILL HELP

Roll the wheatfield as soon as it will bear a team upon it. Follow this rolling immediately with a light harrowing. Better use a "weeder" if you have one. If you have a harrow with adjustable teeth, throw the teeth back at an angle of 45 degrees and harrow the field, going back and forth parallel with the wheat rows. This harrowing will not injure the wheat roots, but will break up the crust and make a surface mulch. This surface mulch will prevent much evaporation and save thousands of barrels of water. If you do not happen to have a roller, or if you do not think it wise to roll the wheat, harrow just the same. It pays.

Plantfood Makes Crops

The tiny wheat plant must have special nourishment. It must have a liberal supply of readily available plant-food of the right kind to maintain it in vigorous growth. Big crops demand enormous quantities of plant-food. The biggest help you can give your wheat crop is to apply 100 pounds per acre of Swift's Steamed Bone and Potash, analyzing 2 per cent Ammonia, 8 per cent available Phosphoric Acid, and 2 per cent Potash. This should be broadcasted or distributed on the wheat through the fertilizer attachment of the wheat drill, with the lime spreader, or other fertilizer distributor. If the wheat drill is used, leave the discs suspended so that they will not cut the wheat plants. Apply this fertilizer before the field is rolled. Harrowing it will work it into the soil where the roots make best use of the plant-food. You can carry on these operations until the wheat is up 4 inches in height without injury to the crop. Fertilizer feeds the crop. It contains no weed seeds.

Help For Grass and Clover Seeding

If grass and clover seed is sown upon the wheat field in early Spring, this early cultivation will bury the seed sufficiently deep to insure good germination. The addition of available plant-food in the forms mentioned, will greatly increase the chances of a successful "catch of grass." By such treatment, weak wheat will be greatly benefitted and materially assisted towards a profitable yield of superior quality of grain. Top dressing pays. Try it on your Oats and double the yield.

Delivery By Schedule vs The Old Haphazard Way

We are independent, also progressive. After watching the operations of union delivery service in other cities, after writing many letters and talking to many people from towns where they have such service we are more than glad to have the opportunity for giving our customers the same kind of service.

Every woman in Rushville knows just when to expect the postman with the mail. With the Benson system in operation the grocery order will come in the same prompt way.

Which is the better, to know exactly when to expect an order, or to have it delivered in maybe ten minutes or maybe two hours after ordering?

As to the sanitary feature, the central station, according to our contract must be kept as clean as any store in town and probably will be cleaner than some. Covered wagons with double decks will be used and orders will be handled in a more sanitary manner than when piled in an open wagon.

We leave it to the judgment of our customers to decide which is the better.

COMBING WON'T RID HAIR OF DANDRUFF

The Easiest and Best Way Is to
Dissolve It.

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you want to preserve your hair, do by all means get rid of dandruff, for nothing destroys the hair more quickly. It not only starves the hair and makes it fall out, but it makes it stringy, strongly, dull, dry, brittle and lifeless, and everyone notices it. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

ALUMNI DAY IS OBSERVED

Many Graduates of Princeton Return for Celebration

(By United Press.)
Princeton, N. J., Feb. 12.—"Alumni Day" was observed here this afternoon by a large representation of the graduates of Princeton University. A general meeting of the former students began shortly before noon at which addresses were delivered by President Hibben and others. Luncheon was served in the Graduate College. "Alumni Day" is an idea of the graduates council of the university, who believed that many of the alumni would welcome an opportunity to visit their Alma Mater when there were few outside attractions.

MICHIGAN G.O.P. IN CONVENTION

Republican Meet to Nominate Candidates for Supreme Court and Regents of University

ALSO BOARD OF EDUCATION

(By United Press.)
Grand Rapids, Mich., Feb. 12.—Michigan republicans met today in Grand Rapids for the annual spring convention of the party. Candidates were to be nominated for the following offices:

Two justices of the supreme court, superintendent of public instruction, two regents of the University of Michigan; one member of the state board of education; and two members of the state board of agriculture.

CARNIVAL AT TAMPA

(By United Press.)
Tampa, Fla., Feb. 12.—The annual "Gasparilla Carnival" similar to a mardi gras, of Tampa opened today. It will be a "dry" event, too, anything stronger than grape juice being barred. The Rotary Club is in charge of the various events.

TO INTRODUCE WILSON.

James E. Watson of this city will introduce Henry Lane Wilson, former United States ambassador to Mexico, when the latter speaks at the Columbia club in Indianapolis tonight on "Mexico." Mr. Watson recently replied to President Wilson's Indianapolis speech at the Columbia club.

REDRAFTS BILL FOR UNEMPLOYED

As Proposed Law Now Stands it
Calls For Service Commission
to be Appointed by Judge.

MAY BE INTRODUCED SOON

Provides City Councils May Create
Work Without Advertising For
Bids as is Now Done.

(By United Press.)
Indianapolis, Feb. 12.—The committee which has been working over the city bill designed to solve the problem of the unemployed in Indiana has redrafted the measure and finally has it ready for presentation to the legislature. The idea which had its birth in Kokomo has quickly spread to all parts of the country where legislatures are in session and many requests are being received for copies of the bill and an explanation of its central idea. It has already been accepted as one of the most carefully thought out methods of meeting the unemployed problem. As redrafted, the bill calls for an unemployed service commission to be appointed by the circuit judge. It consists of five men. The commission will decide for each county whether an emergency exists warranting the employment of the many unemployed in the city and county on the public works of the county or city.

Should the commission determine that an emergency exists, it communicates the fact to the city or county councils. The bill empowers these councils to order the board of public works or board of county commissioners to undertake such work as they have contemplated doing without going through the requirement of advertising for bids.

The commission is empowered to conduct a registry for the unemployed, determining the relative merits of the men and women out of work. It recommends lists of unemployed to the board.

The bill provides that the men thus employed shall be paid a wage slightly less than the prevailing wage, but not more than 20 cents per day under the prevailing wage.

Within the next few days the bill probably will be introduced. It was drafted under guidance of the committees of the Kokomo and Indianapolis commercial bodies by W. O. Conway, an attaché of the state bureau for legislative information.

SCHOOL OF POLITICS.

(By United Press.)
Evansville, Ind., Feb. 12.—Young lawyers and public officials are applying for "chairs" in a new school to be opened here. It is an evening "school of politics" for girls, to be conducted by the Woman's Franchise league.

MAYOR BEBOUT BEFORE CLASS

Answers Question of High School
Civics Class Regarding City
Government This Afternoon.

PRACTICAL PHASE OF WORK

School City With Two Tickets Being
Organized in the Junior High
School-Election Soon.

Mayor C. L. Bebout was up before the civics class of high school seniors at Graham school this afternoon from 1:20 o'clock to two answering some rapid fire questions concerning city government. This is only a part of the practical work that is being done in the civics government classes not only in the high school but in the junior high school as well.

It was Miss Genevieve Brown's English history class that Mayor Bebout instructed on the practical methods applied in city government this afternoon. They asked him about improvements and also displayed some of the knowledge they had gained regarding city affairs.

Charles Brown, deputy postmaster, will talk on postal regulations to the civics class in American history taught by Earl Marlati in the near future. The practical side of the civics work is appealing to the pupils, it is stated.

A school city is being organized in the junior high school, which consists of the four classes in the seventh and eighth grades. They are studying a text book entitled, "Preparing for Citizenship," which was used only by the teacher last year but which was found of such value that all of the pupils are using one this year. One of the purposes of the school is to study the community in its relation to the city.

There are two tickets out in the junior high school and an election will take place soon. Glen Wood has been selected the candidate for mayor by both sides so that his prospects for election are fine, considering the fact that he is a fusion candidate.

Sanitary officers are to be named later and they will make inspections of the school rooms. Health work and street improvement are some of the topics which are to be discussed in the junior high school.

K of P. WORK.

The Knights of Pythias will have work in the Rank of Esquire next Monday night on two pages. The sketch which was to be given has been postponed.

THE AUTO-OILED WINDMILL WITH DUPLICATE GEARS RUNNING IN OIL

Every bearing is constantly flooded with oil. Two quarts of oil in the gear case of this 8-foot auto-oiled windmill will keep the gears and every bearing flooded with oil for a year or more.

The galvanized steel helmet covers the gears, keeps out rain, keeps out dust, keeps in oil. The mill needs oiling but once a year.

There is a windmill, known the world over as "the windmill which runs when all others stand still." This new windmill with gears and bearings flooded with oil runs in much less wind than that of any known windmill.

The two large gears, which lift the load straight up, are each independent of the other and each is driven by its own pinion on the main shaft and must take its half of the load at all times. The auto-oiled windmill, with its duplicate gears and two pinions lifting the load straight up, is unbreakable. Every 8-foot mill is tested under a pumping load of 3500 pounds on the pump pulleys. The outside well is the one that has standing water. We know that every one of these windmills is unbreakable. We venture the assertion that this is the most nearly perfect, best made, best tested, best oiled, most nearly perpetual, automatic and self-sufficient of any machine of any kind ever made for farm work and the most nearly fool-proof.

There is no friction on any part of the furling device when the mill is running and very little when the wheel is furled. A small child can easily furl this windmill or an automatic regulator can take care of it. One of these mills has been furled 10,000 times in one day by a man on our premises—more times than it would ordinarily be furled in 30 years of service. A hand brake, of the automobile type, is used, and it always holds.

The gear case contains two pairs of gears and the supply of oil. From this gear case the oil circulates to every bearing in a constant stream. It flows out through the friction washers in the hub of the wheel and is automatically returned to the gear case. Not a drop of oil can escape. It is used over and over. So long as there is any oil in the gear case the gears and every bearing will be flooded with oil.

If you are tired of climbing a windmill tower; if you are tired of buying repairs and having them put on; or, if you are tired of waiting for a big wind, let us furnish you an unbreakable, self-oiling, over-going mill to go on any old tower. It costs but little and you will get the difference between no water in a light wind and an abundance of water in almost no wind. The flooding of all the working parts with oil, the perfect balance of the wheel and vane on the tower, the very small turntable on which the mill pivots and the outside furling device make this difference.

Now there is no objection to a high tower. Have as high a tower as you need to get wind. You don't have to climb it. Your dealer can come once a year and put in oil, if needed, and inspect the mill.

Running water purifies itself—stagnant water, standing water, collects and retains impurities. If you pump from your well constantly all the water it can spare, the water that comes in to take its place will be pure. If the water in your well stands until you happen to want some, and you pump but little, then it is likely that surface water will flow into it and carry in impurities. The outside well is the one that has standing water. A flowing stream is the thing to be desired.

The auto-oiled windmill makes all this possible as it can run from one year's end to the other with practically no wear and no cost. If interested, write Aermotor Co., 1146 So. Campbell Ave., Chicago. Why not have flowing water, cool in summer and warm in winter, always fresh and pure? It will cost next to nothing. It will give health to your family and stock. Let the water run into a good size reservoir and raise all the fish of the choice kinds your family can eat, and have water to irrigate your garden and make it raise many times as much as it would otherwise. Water costs nothing. Use it. To let it stand is to abuse it.
